

Directions to SR 520 at 148th Ave NE (Bellevue/Kirkland): From the office, enter I-5 Southbound at NE 45th St. Merge to the left right away to exit Eastbound on SR 520. Stay on SR 520 until the exit for 148th Avenue NE, heading north. This is a split ramp so take the second (B) part of the exit. The exit ramp will curve around to the right. Turn right at the stoplight, and go just across the overpass to park on the right shoulder, clear of the road on the dirt area. Be careful that you do not drive into the small drain ditch there.

To count Westbound traffic: Set up your workstation on the grassy area overlooking the freeway. Count the traffic going west.

To count Eastbound traffic: Go to the pedestrian lane near the Azteca Restaurant and cross at the light. Set up your workstation on the sidewalk on the west side of the overpass and count the traffic going east. It is possible to count Eastbound traffic from the Westbound site, however it is best to count from the overpass facing the eastbound traffic.
