

PhotoEssay 2009

Checklist before Submission

Before Submitting Your PhotoEssay for Judging...

Students, did you?

1. Use your first name only (if a minor)
2. Credit the photo(s) or image(s)? (See citation instruction at <http://uwtrio.org>)
3. Check the spelling? (It's amazing how many misspellings are found in final submissions.)
4. Edit your entry? Have someone look over your entry for errors in content, grammar, punctuation, and organization; students then make any needed changes. (We get too close to our own writing; therefore, we miss things that a "fresh eye" can catch.)
5. Pick images that tell a story by themselves? (The images should be so connected to the content, that they let the reader feel the meaning behind the essay.)
