University of Washington Upward Bound Program 2007

November 4, 2007

The University of Washington Program has been serving Nathan Hale High School since 1983. Through all these years, we have enjoyed an efficient and productive relationship with the NHHS faculty, staff, and students.

While preparing our grant proposal in late 2006, we became increasingly aware that NHHS no longer exhibits the traits of a "needy school." In terms of test scores, low income status, retention and college going rate, it is evident that NHHS administrators, faculty and staff have worked hard to make progress. Although we will continue serving our current NHHS students who are already admitted into the program, we regret that we will not be able to accept any future NHHS students.

We do wish to thank Nathan Hale administrators, faculty, staff, students and families for their support and we are proud of our affiliation and accomplishments over the program history. We also know we will continue to see Nathan Hale Upward Bound Alumni progress and we will share reports.

Ultimately, we know that given the leadership and the direction that Nathan Hale has been taking, your school will continue to excel. Our U.W. Upward Bound program staff would like to wholeheartedly wish you all the best.

Sincerely,

Leny Valerio-Buford, Director
Fina Marino, Counselor
Donna Bolima, Instructor
Will Pirrie, Instructor
Dave Wolczyk, Instructor
