

UW Autism Center

# School Services

2015 - 2016

## ▶ Individualized Training Workshops

Customized workshops to meet the specific needs of teachers, administrators, and other school-based staff.

We can teach a wide variety of topics including:

- The ins and outs of applied behavior analysis
- Preventing and managing challenging behaviors
- Setting up your classroom for success
- Inclusion for students with ASD
- and more...

## ▶ Classroom Consultation

Classroom observations and consultations to help teachers and other personnel implement evidence-based practices to maximize the learning of students with ASD.

## ▶ Student Consultations

Student-focused consultations to assist with IEP development, conducting a functional behavior assessment (FBA), development of a behavior plan, and recommendations for improving learning and behavior.
