

## Back-to-School with the Seattle Teachers Autism Symposium!

Over 750 educators made their way to UW Kane Hall for our second annual symposium. This year we held two events over four days. Thank you to guest speakers from Haring Center, UW Adult Autism Center, Lake WA School District, & Speech and Hearing Sciences for joining the UW Autism Center and St. Johns Masons in this great event.

## A warm welcome to our new Director of

**Operations.** For the past 15 years Kathryn Larson has worked collaboratively to build and expand autism programs, support research efforts, and increase access

(cont.) to autism services at the University of Michigan and Michigan State University. Originally from Seattle, Kathryn looks forward to returning and is excited to join the UW Autism Center team and to meet the Seattle community!

## First annual dinner to benefit UW Autism Center programs and families.

We are coming together to learn, celebrate, connect, and make a difference. There will be lightning talks to illuminate, inspire, and energize. Join in and bring a friend! If you have any questions, don't hesitate to contact us -

uwautism@uw.edu, 206-221-6806, or 1-877-408-8922.
