

On-Time Autism Intervention Project:

Questions for Applied Behavior Analysis (ABA) Providers

1. What is your approach to including parents or coaching or training parents to support the child at home?
2. How do you determine goals and what does parent input look like for that?
3. Can parents be involved in therapy sessions? Am I allowed to observe?
4. How do you make sure the treatment approach is developmentally appropriate for a child my child's age?
5. Can you tell me a little bit about the environments where you teach?
6. My child has challenging behaviors, how will you work with him/her to address these issues? Will you support me with these challenges?
7. Do you use a more structured approach or a more play-based approach in your intervention?
8. What happens if the child you are working with does not make progress with the approach you are using?
9. How many children have you worked with who are my child's age?
10. How do you accommodate nap schedules? What happens if providers are available during my child's regular nap time?
11. For bilingual families: My family is bilingual, have you worked with bilingual families? What is your approach to working with bilingual families?
12. What does collaboration with other professionals look like?
