

Navigating Authorship

NIH Topic: responsible authorship and publication

For our kick-off into 2018 BRI series, we will hear a panel of UW and Fred Hutch faculty discuss authorship challenges and responsibilities, particularly when power relationships are involved. Authorship is our currency in academia. Collaborators can have different expectations and perspectives on contributions. Stakes often feel quite high. Panel discussions will be moderated by UW postdocs, and discussants will offer strategies for overcoming or minimizing difficult authorship negotiations.

Join us for this engaging discussion!

Wednesday, July 11, 2018
Hogness Auditorium,
A-420 Health Sciences Bldg

UW: 4:00-5:00 pm
Coffee 3:30-3:55 pm

/////////
(Fred Hutch: noon-1pm, Pelton Auditorium)

Panelists

- **Jennifer Adair, PhD**
Clinical Research Division, Fred Hutch
- **Alice Berger, PhD**
Human Biology Division, Fred Hutch
- **William Mahoney, PhD**
Center of Cardiovascular Biology and
Regenerative Medicine, UW

Moderators:

- **UW: Jennifer Dezet Deem, Research Fellow, Medicine: Metabolism, Endocrinology & Nutrition**
- **Hutch: Kate MacDuffie, Research Associate, UW Autism Center**
