Behavioral Tech has allocated **17.25** hours of CE for this activity and will email a certificate of attendance upon 100% completion of this activity.

Information about the Instructors

Melanie S. Harned, Ph.D., ABPP, is the Research Director of the Behavioral Research and Therapy Clinics. She is the developer of the DBT Prolonged Exposure protocol and has received several grants from NIMH to develop and evaluate this approach to treating PTSD in high-risk and multi-diagnostic individuals. She has also received multiple NIH-funded grants to develop and evaluate technology-based methods for disseminating and implementing evidence-based treatments into clinical practice. Since 2005, she has served as Co-Investigator on Dr. Marsha Linehan's NIH-funded research to evaluate DBT in diverse client populations. She also currently works as the Director of Research and Development at Behavioral Tech, LLC and regularly provides training and consultation nationally and internationally in DBT and DBT PE. She has published numerous articles and book chapters and is licensed as a psychologist in the state of Washington.

Kathryn E. Korslund, Ph.D., ABPP, is the Associate Director of the Behavioral Research and Therapy Clinics. She is an expert in the DBT Prolonged Exposure protocol as well as an expert DBT trainer and consultant. She has conducted DBT training and consultation within large managed care systems and is experienced with the challenges of implementing DBT to fidelity within public systems and extracting data from them. She has considerable training and experience in the clinical and research administration of randomized controlled trials (RCTs) and expertise conducting research with severely and acutely suicidal persons. She is the chief DBT fidelity monitor and adherence coding trainer for DBT and has provided coder training and fidelity monitoring consultation services for five R01s, two treatment development R34s, three multisite RCTs and three international RCTs. She is also the board President for the DBT-Linehan Board of Certification.

Faculty Disclosure Statement: *Melanie S. Harned, Ph.D., ABPP, and Kathryn Korslund, Ph.D., ABPP receive federal grants to research DBT and DBT PE, and are paid to provide training and consultation in DBT and DBT PE.*

Behavioral Tech Policies Regarding Faculty Disclosure and Disclaimers

Conflict of interest definition: A conflict of interest may be considered to exist if a continuing education course faculty is affiliated with, or has any significant financial interest, in any organization(s) that may have a direct interest in the subject matter of the presentation or may be co-sponsoring or offering financial support to the course. Situations involving a potential conflict of interest are not inherently bad or wrong, but in accordance with standards for continuing medical education we would like you to be aware of the affiliation/financial interest of your instructors.

Faculty Disclaimer: When an unlabelled use of a commercial product, or an investigative use not yet approved for any purpose is discussed during an educational activity, we shall require the speaker to disclose that the product is not labeled for the use under discussion or that the product is still investigative.

Notice of requirements for successful completion: Participants must attend 100% of the training to receive a certificate of successful completion. This includes signing in and out each day of the event.

Commercial support or sponsorship: There is no commercial company support for this CME/CE event.

Noncommercial Sponsor Support: There is no noncommercial sponsor support for this CME/CE activity.

Non-Endorsement of Products: The Behavioral Tech approval status refers only to continuing education activities and does not imply that there is real or implied endorsement of any product, service, or company referred to in this activity nor of any company subsidizing costs related to the activity.

Off-Label Product Use: This CME/CE activity does not include any unannounced information about off-label use of a product for a purpose other than that for which it was approved by the Food and Drug Administration (FDA).
