### **DANGER**

You are entering an area with change-ringing bell mechanisms. For your safety, observe the following rules:

#### DO NOT ENTER IF THE BELLS ARE RINGING

- Knock on the door someone will come as soon as possible.
- If there is no answer to your knocking, please come back later.
- If immediate access is essential, knock again repeatedly

Once inside:

#### DO NOT TOUCH THE BELL ROPES

- -The ropes connect to bells of several 100 lbs.
- Pulling a rope may start a bell swinging out of your control

Access to the roof is via a free standing ladder through the central hatch in the ringing room ceiling and through the belfry. Unaccompanied access to the belfry and roof is only for UW authorized personnel.

BEWARE OF THE ROPES WHILE PUTTING THE LADDER UP.
OBSERVE THE STATE OF THE BELLS AS YOU CLIMB THE LADDER

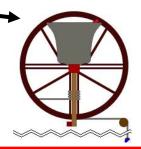

- ONLY CLIMB INTO THE BELFRY IF THE BELLS ARE HANGING MOUTH DOWN.

SAFE Bell is "DOWN

- IF ANY BELL IS MOUTH UP, DO NOT ENTER THE BELFRY.

PHONE FOR A RINGER (see contacts)
TO MOVE THE BELLS TO "DOWN".

DANGER Bell is "UP"

PLEASE LEAVE HATCH OPEN AND LADDER DOWN WHEN YOU LEAVE
