

# Formal EPA Policy for CLARC Program Acknowledgement on all Center Products

7/11/13 MED

Source: EPA Email Communications and CLARC Program Terms and Conditions

## **PUBLISHED ARTICLES - Mandatory**

I have included below the excerpt from the Terms and Conditions related to publications. In bold is the acknowledgement statement that must be included in any journal article published.

**“This publication was made possible by USEPA grant (RD-83479601-0). Its contents are solely the responsibility of the grantee and do not necessarily represent the official views of the USEPA. Further, USEPA does not endorse the purchase of any commercial products or services mentioned in the publication.”**

## **PRESENTATIONS, POSTERS, OTHER MEDIA**

EPA support should also be acknowledged in presentations, posters, and other media, as indicated below, but the “blurb” is only required in published journal articles.

This can be used...

**“This “xxxxxx” was made possible by USEPA grant (RD-83479601-0). Its contents are solely the responsibility of the grantee and do not necessarily represent the official views of the USEPA. Further, USEPA does not endorse the purchase of any commercial products or services mentioned in the publication.”**

Or shortened to this if space is an issue... Cannot be used for publications!

**USEPA Grant (RD-83479601-0)**

## **Additional CLARC Terms and Conditions**

- The Center Director is responsible for ensuring that all members of the project team comply with these acknowledgement requirements.
- Additionally, an acknowledgment of EPA support should be included on presentations, posters, Web pages, and stated during all media interviews.
- The recipient is strongly encouraged to continue to notify the Project Officer of any papers that are published based on the research under the agreement. EPA intends to post references to all publications resulting from the agreement on the EPA/NCER website.
- The recipient agrees to submit one copy of each peer reviewed journal article(s) resulting from this research, in addition to the final technical report.
- The recipient will provide, biannually on January 31 and July 31, a comprehensive, updated list of publications attributable to each Center project, including copies of new papers as well as a comprehensive list of publications with the final report.
