Sara Tifft

As Project Director of the PATH Sayana Press Pilot Introduction project, Sara Tifft provides strategic leadership in partnership with global- and country-level health and development experts. Since the mid-1980s, Tifft has directed and provided technical assistance to contraceptive, child health, and HIV/AIDS social marketing and public-private partnerships in Latin America and East Africa. She specializes in developing strategies to introduce new products and technologies. Tifft holds an MBA with an emphasis in strategic marketing and financial accounting from Yale University.

Jenni Unger

Dr. Jennifer Unger is a board certified obstetrician gynecologist. She is affiliated with the following professional organizations: American College of Obstetricians and Gynecologists, International Federation of Obstetricians and Gynecologists, University of Washington Department of Global Health and the UW Global Center for Integrated Health of Women, Adolescents and Children (Global WACH)

Dan Grossman

Daniel Grossman received his Bachelor of Science in Molecular Biophysics and Biochemistry from Yale University and an MD from Stanford University. He completed his residency in Obstetrics and Gynecology at the University of California, San Francisco (UCSF). He is currently the Director of Advancing New Standards in Reproductive Health (ANSIRH), a research program in the Department of Obstetrics, Gynecology and Reproductive Sciences at UCSF, where he is also Professor. His research includes both clinical and social science studies aimed at improving access to family planning in the US, Latin America, and sub-Saharan Africa, as well as evaluating the impact of integrating reproductive health and HIV services. He is also a Senior Advisor at Ibis Reproductive Health, with which he co-leads the Oral Contraceptives Over-the-Counter Working Group. He has published over 100 articles in peer-reviewed journals and serves on committees for organizations such as the American College of Obstetricians and Gynecologists, the American Public Health Association and the World Health Organization.
