The ASAM Treatment of Opioid Use Disorder Course covers the highest quality, evidence- based practices for treating patients with opioid use disorder.

This course covers all medications and treatments for opioid use disorder, and provides the required education needed to obtain the waiver to prescribe buprenorphine.

The ASAM Treatment of Opioid Use Disorder Course is designed for:

- Physicians, nurse practitioners, physician assistants, and health care team members working with patients with opioid use disorder.
- Physicians, nurse practitioners, and physician assistants who wish to obtain a waiver to prescribe buprenorphine in office-based treatment of opioid use disorders.

Our case-based learning format will show you how to apply this new knowledge. You will learn how to:

- Have specific knowledge to offer treatments for patients with opioid use disorder.
- Identify and assess patients who are appropriate for treatment with medications.
- Discuss the psychiatric and medical co- morbidities associated with opioid addiction.
- Apply for a waiver to prescribe buprenorphine to patients with opioid use disorders.

ASAM is an approved provider by CSAT/SAMHSA of DATA 2000
