Important Dates

- Begin of Abstract Submission May 30th, 2012
- End of Abstract Submission October 31st, 2012

CALL FOR ABSTRACTS

We encourage you to submit scientific contributions to the International Congress Hidden Hunger in Stuttgart. If you want to apply for the scientific program, please submit an abstract via https://hiddenhunger.uni-hohenheim.de/

CONTENT / VENUE

Hidden Hunger
From Assessment to Solutions

The International Congress Hidden Hunger has three objectives:

1.) to create awareness of the global problem of Hidden Hunger,
2.) to get scientific issues on the agenda of policy makers, academicians, politicians and industry, as well as
3.) to discuss solutions to address the worldwide micronutrient deficiencies.

Scientists from different areas, field workers, members of non-governmental organizations (NGOs) and representatives from administration, management and policy will be invited to discuss the different topics for four days at the University of Hohenheim located in Stuttgart, Germany.

Attention will be given to Africa and Asia as well as North America and Europe. Hidden Hunger is an increasing problem even in the developed countries, whose potential negative consequences on long-term health are often overlooked and underestimated.

**PRELIMINARY PROGRAM**

"Like undernutrition, micronutrient deficiency or Hidden Hunger is a violation of a child’s right to a standard of living adequate for the child’s physical and mental development, and to the enjoyment of the highest attainable standard of health.

**Session 1:** How to Assess Hunger and Malnutrition
- **Eileen Kennedy** / Tufts University, Boston, USA

**Session 2:** Distribution of Global Micronutrient Deficiencies
- **Patrick Webb** / Tufts University, Boston, USA

**Session 3:** Maternal and Neonatal Mortality
- **Parul Christian** / Department of International Health, Baltimore, USA

**Session 4:** Under-5-Mortality
- **Zulfiquar Bhutta** / AGA KHAN University, Karachi, Pakistan

**Session 5:** Consequences for Development (mental and physical)
- N.N.

**Session 6:** Challenges facing the Global Food System (incl. aspects related to developed countries)
- **Charles Godfray** / University of Oxford, Department of Zoology, Oxford, UK

**Session 7:** Policy
- **Joachim von Braun** / ZEF, Bonn, Germany

**Session 8:** Agriculture-Nutrition Linkages and the Potential Role of Biofortification
- **Matin Qaim** / Georg-August-Universität, Göttingen, Germany

**Session 9:** Biofortification, Biodiversity and Diet: A Search for Complementary Applications against Poverty and Malnutrition
- **Timothy Johns** / McGill University, Quebec, Canada

**Session 10:** New directions for biofortification
- **Ruth Oniang’o** / KARI-NARL-Complex, Nairobi, Kenia

**Session 11:** NGO FORUM
- **PRESENTATION OF SUCCESSFUL PROJECTS AND INNOVATIVE IDEAS FOR THE FUTURE**
