Center Director Survey

Instructions:
• The questions in this survey are about nutrition and physical activity for children in your Center who are 2-5 years old in any program or classroom. Please read each question carefully and choose the response that best fits your Center. It is important that you answer all questions. This survey should take about 25 minutes.
• Unless you are instructed to “select all that apply”, please choose one answer for all questions in this survey.
• This survey should be completed by the person responsible for running the Center (for example, the Center Director or Administrator).
• Some of the questions are about foods and beverages your Center offers, so you may find it helpful to have your Center’s menu on-hand as you take the survey.
• Your responses to this survey are confidential. That means that only the research team at University of Washington will know who filled out which form.
• When you are done, please put the completed survey in the postage-paid envelope to return it to us. Once we receive the completed survey, we will use the study ID number above to enter you into a drawing for a chance to win one of 100 $10 gift cards.
• If you have questions or comments about this survey, please contact the survey coordinator, Bridget Igoe at 206-616-6527 or igoe@uw.edu

### 53. What best describes what staff members do during children's physically active playtime?

- [ ] They supervise only (they rarely or never play with children)
- [ ] They supervise and verbally encourage physical activity
- [ ] They supervise, verbally encourage physical activity, and sometimes join in
- [ ] They supervise, verbally encourage physical activity, and often join in

### 54. Do staff members incorporate physical activity into classroom routines and transitions*?  

*This might include movement during circle time or story time, Simon Says, or other movement games while children wait in line.*

- [ ] Each time they see an opportunity
- [ ] Often
- [ ] Sometimes
- [ ] Rarely or never

## Your Views on Physical Activity

### 55. In your opinion are any of the following major challenges to providing more physical activity to children at child care?  

*Please limit your response to four (4) answers.*  

*If your Center has no major challenges to providing more physical activity select “NONE”.*

- [ ] NONE—no major challenges
- [ ] Not enough outdoor play space
- [ ] Not enough indoor play space
- [ ] Limited play equipment
- [ ] No outdoor covered space (to provide shade or shelter)
- [ ] Unsafe neighborhood
- [ ] Air pollution (smog)
- [ ] Land pollution (pesticides or other chemicals)
- [ ] Weather is too hot, cold, or wet to go outside
- [ ] Children lack appropriate or adequate clothing and shoes
- [ ] Not enough time
- [ ] Children’s interest or skill
- [ ] Parents’ interest or preference

**Your Center’s Policies**

68. Please think about your Center’s policies on nutrition, physical activity, and screen time. For each row below, select what best describes the type of policy your Center has (no policy, informal policy, or written* policy).

*For this survey, a written policy includes written guidelines or statements about your Center’s operations, practices, or expectations for staff members, children, or families. Policies can be included in parent handbooks, parent contracts, parent welcome packets, staff manuals, your Center’s Health Policy, and other documents.
