

UNIVERSITY OF WASHINGTON Center for Public Health Nutrition

Assessment, Policy Development & Assurance

CPHN Public Health Practice Group Portfolio, 2011

► Families

Unplugged and Media Savvy

Reducing the negative impact of entertainment screen-time on food choice.

► Child Care & Early Childhood

Cost & Quality

Measuring the association between food costs and the quality of food in child care.

Washington Active Bodies Active Minds: www.waabam.org

Develop and disseminate screen time interventions in early childhood settings.

Child Care and Obesity

Briefing papers built on results of Child Care & Obesity Summit.

► Schools

Creating a Sustainable Collaborative Research Infrastructure

Building a sustainable, long-term collaborative research infrastructure between Seattle Public Schools and UW.

AIMS: Assessing the Impact of Menu-labeling in Schools

Evaluation of the impact of calorie labeling on student food selection in high schools.

Communities Putting Prevention to Work

Provide technical assistance and training to King County School Districts.

Impacting the School Nutrition Environment Through Policy: An Action Guide

A guide for use by school and community leaders for developing, implementing and evaluating evidence-based school nutrition policies.

► Communities

WIC Community Partnerships Project to Promote Fruit and Vegetables

Facilitation and evaluation of 12 local partnership projects between food groups and WIC agencies to increase fruit and vegetable consumption.

► Policies & Environments

Evaluating American Academy of Pediatrics Standards & Recommendations

Project to cross-walk standards for nutrition, physical activity and screen time in childcare settings with Washington State regulations.

Evaluating the Impact of the Washington State Nutrition & Physical Activity Plan

www.wapartnersinaction.org

Opportunities to Increase Access to Healthy Foods

An environmental scan and report for WA Access to Healthy Foods Coalition.

Nutrition and Obesity Policy Research and Evaluation Network

National and State networks to study policy development and implementation.

*Advancing
public health
approaches
to improve
nutrition and
physical activity
through
environmental and
policy change*
