

The University of Washington has two types of Honors Degrees: College Honors and Departmental Honors (see reverse)

### COLLEGE HONORS

To graduate with College Honors (diploma will read "With College Honors"), students must complete **BOTH** the Honors Core **AND** Departmental Honors requirements in their major. Students must apply for and be accepted to their major's departmental honors program even if they have already been admitted to College Honors:

**Honors Core (47 Credits) replaces Areas of Knowledge requirements (75 credits).**

Though the Honors Core replaces the Areas of Knowledge, it does **NOT** replace the UW Proficiency Requirements. Therefore, **ALL** students in the College of Built Environments must still complete requirements in English Composition and QSR.

**Note:** All College Honors students must complete 10 credits of "additional writing courses" required by the College of Built Environments. Ten credits of HONORS coursework will satisfy this requirement. *The 'HONORS' course prefix replaced the 'H A&S' prefix beginning Summer 2009.*

**Ad Hoc:** Students may fulfill up to 15 credits of Honors Core requirements by completing an ad hoc project in a non-Honors course outside of the major or via a non-Honors study abroad. See an Honors Program adviser for more information before beginning the course or program.

## DEPARTMENTAL HONORS

*(These requirements do NOT apply to College Honors Students)*

To graduate with Departmental Honors (diploma will read “with Distinction”), students must complete UW’s *General Areas of Knowledge* **AND** Departmental Honors requirements in their major.
