

The University of Washington has two types of Honors Degrees: College Honors and Departmental Honors (see reverse)

COLLEGE HONORS

To graduate with College Honors (diploma will read "*With College Honors*"), students must complete **BOTH** the Honors Core **AND** Departmental Honors requirements in their major. Students must apply for and be accepted to their major's departmental honors program even if they have already been admitted to College Honors:

HONORS CORE		+	DEPARTMENTAL
<p><u>Honors Civilization*</u> (Complete any 3 courses)</p> <p>HONORS 251, 252, 253 HONORS 261, 262, 263 HIST 111, 112, 113** SIS 200, 201, 202** ARCH 350, 351, 352**</p> <p>**HONORS SECTION ONLY</p>	<p><u>Natural Science</u> (Complete any 1 sequence)</p> <p>PHYS 121, 122, 123 (HONORS LECTURE AND SECTION)</p> <p>MATH 124, 125, 126 (HONORS LECTURE AND SECTION)</p> <p>MATH 134, 135, 136 MATH 334, 335, 336 CHEM 145, 155, 165 CHEM 335, 336, 337 BIOC 440, 441, 442 (HONORS SECTION ONLY)</p> <p>BIO 180, 200, 220 <i>with</i> Honors Biology Seminar</p>	<p><u>Additional Honors Courses</u> (Complete any 3 courses)</p> <p>Any combination of any 3 Honors Civilization and Honors Natural Science courses approved by the Honors Program as applying towards the Honors Core requirement.</p>	<p><u>Departmental Honors</u> (10 Credits)</p> <p>Honors PSE students are required to complete a minimum of 10 Honors credits, with either PSE 494 H and 496 H or PSE 499 H.</p> <p>Additional credits can also be applied through the Ad Hoc option, where students can contract with the instructor in a given course to complete additional work and obtain Honors credit.</p> <p><i>Please see an adviser in Forest Resources for more information.</i></p>

Honors Core (47 Credits) may overlap with some courses required in your major, including some Areas of Knowledge. Please confirm any potential overlap with an adviser. The Honors Core does **NOT** replace the UW Proficiency Requirements, including English Composition.

Note: All College Honors students must complete 10 credits of "additional writing courses" required by the College of Forest Resources. 10 credits of HONORS coursework will satisfy this requirement. *The 'HONORS' course prefix replaced the 'H A&S' prefix beginning Summer 2009.*

Ad Hoc: Students may fulfill up to 15 credits of Honors Core requirements by completing an ad hoc project in a non-Honors course outside of the major or via a non-Honors study abroad. See an Honors Program adviser for more information before beginning the course or program.

DEPARTMENTAL HONORS

(These requirements do NOT apply to College Honors Students)

To graduate with Departmental Honors (diploma will read "with Distinction"), students must complete the *Areas of Knowledge* **AND** Departmental Honors requirements in their major.

COLLEGE OF FOREST RESOURCES Paper Science and Engineering

Areas of Knowledge + Proficiency Requirements

(75 Credits)

These are the general UW CORE Requirements, NOT Honors CORE.

Departmental Honors

(10 Credits)

Follow the same requirements as described on reverse.
