

APPENDIX C: IPE EVENT FLYER TEMPLATES

Interprofessional Education
UW Health Sciences Initiative
Transforming learning for tomorrow's health professional

UPCOMING IPE EVENTS

Our mission is to advance the health of individuals and communities by integrating and transforming the learning experience across the University of Washington's health sciences schools—Dentistry, Medicine, Nursing, Pharmacy, Public Health and Social Work.

INTERPROFESSIONAL PRACTICE CURRICULUM SERIES

- ▶ **Oral Health**
March 4, 2014 3:30 p.m. – 5:30 p.m.
Communicate and share accountability with other professionals working in the health-services field.
- ▶ **Integrated Care, Post Military Deployment**
April 11, 2014 3:30 p.m. – 5:30 p.m.
Identify social and clinical health concerns, while implementing patient-centered care.

Contact: Megan Moore at mm99@uw.edu for room locations and to indicate your interests in attending all or select sessions. Class credit may be available.

Interprofessional Education Learning Objectives

- Engage other health science professionals in shared client-centered problem solving and service delivery.
- Listen actively and encourage the ideas and opinions of other health science professionals.
- Use the full scope of knowledge, skills and abilities to provide care that is safe, timely, efficient, effective and equitable.
- Articulate a social work perspective to a team of learners from other health science disciplines.
- Identify barriers and explore solutions for engagement in developing treatment plans.
