

Subject: **UPDATED**: CONSTRUCTION PROJECT NOTICE – PAVING OF TEMPORARY ROAD- **DATE CHANGE**.

Date: **Saturday, March 7, 2015**

Event: Paving of Temporary Road for Construction Project (NOW 0019)

Area Effected: Annex 4, Area between Foege, Hitchcock, Ocean Sciences Buildings

Effect: Odors and Vibration in the Surrounding Areas, Traffic Control Changes.

Duration: 3 weeks

A temporary asphalt road will be constructed and installed starting on 2/10/2105, for a duration of 3 weeks. While the asphalt for the temporary road is placed, there is a strong possibility of **vibration** and related odors reaching the surrounding buildings. New charcoal filters will be installed at air handlers at Foege Hall North and South, and Ocean Sciences Building to mitigate odors. There will be flaggers and traffic controls at the access and egress points where the work is to take place. Construction of the temporary road will take place within the fenced area of the site.
