

Global Health Pathway 2009-2010

UW Internal Medicine Residency Program

Clinical Curriculum

PGY1 (Internship)

- No change in broad-based core curriculum in Internal Medicine including ER, ICU, inpatient medicine, cardiology, hematology-oncology, neurology, and ambulatory medicine.
- During the first 6 months of the year, interns will identify themselves as interested in GH and be assigned a GH mentor in ID or GIM.

PGY2 (Junior Resident)

- Continued broad-based core curriculum in Internal Medicine
- 1 block Global Medicine Elective
- 2 blocks of global health-related electives chosen from the list below
- 2 blocks at a core overseas training site (probably Ethiopia, Peru, Kenya)
- 1 other open elective

PGY3 (Senior Resident)

- Continued broad-based core curriculum in Internal Medicine
- 2 blocks of global health related electives chosen from the list below
- 2 blocks at a core overseas training site (Ethiopia, Peru, Kenya)
- 3 other open electives
- Scholarly presentation about their international experience
 - Clinical
 - Research
 - Ethical
 - Political/economic

Current List of Global Health Electives (residents would take a minimum of 5 of these options over 2 years)

- Infectious Diseases Consult Elective
- HIV Medicine Elective
- Dermatology (either V-Derm or Endo/Derm)
- Homeless Healthcare Elective
- Musculoskeletal Elective or Neuromusculoskeletal Elective
- ~~Ambulatory Pediatrics~~ – *NOT AVAILABLE AT THIS TIME*
