Gestational Age Associated Changes in  
Xenobiotic and Nutrient Transporters  
in the Human Placenta

Dr. Stephen McCartney

UW Maternal-Fetal Medicine

Dynamic Decidual Immunometabolism  
in Pregnancy

Scan for Zoom:

This seminar series will provide a forum for sharing research and fostering discussions in the field of pregnancy, placental biology, maternal-fetal pharmacology, and maternal-fetal medicine. We hope to promote interdisciplinary exchange, encourage new collaborations, and support development of future research and grant applications.
