

Statewide Parcel Data Exploratory Meeting

Wednesday, October 18, 2006

10:00 AM to Noon

WA Dept. of Ecology, 300 Desmond Dr., Lacey
Room R3A-19

Overview: This meeting is to gauge the interest in finding a small group of key agencies that are interested to pursuing the development and coordination of a statewide parcel framework data set that would be accessible to various state agencies. Tackling this project would involve the identification of core attributes of interest; licensing and distribution; and building a working partnership with the county parcel custodians and the key agency framework coordinator.

Agenda

AGENDA ITEM	LEAD	TIME
