

# Washington State Parcels Framework Management Group Meeting

June 20, 2007

RURAL  
TECHNOLOGY  
INITIATIVE

# ■ ■ ■ Agenda

Introductions	9:00 – 9:15
Review of Agenda	9:15 – 9:20
Review of Past Minutes	9:20 – 9:30
Project Update	9:30 – 10:00
Discussion: Data Standards	10:00 – 10:50
Next Steps	10:50 – 11:00

# ■ ■ ■ Introductions

- Please don't forget to sign-in

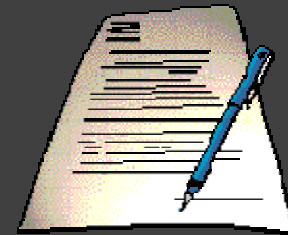

# ■ ■ ■ Review of Agenda

- The objective of this meeting is to provide an update on the project, discuss efforts to understand legal implications, form a subcommittee to investigate a cadastral data standard and schedule future meetings.
- Any additions to the agenda?

# ■ ■ ■ Review of May 23<sup>rd</sup> Minutes

- Thanks to Whitney Buschmann of WSDOT for last months minutes
- Motion for approval

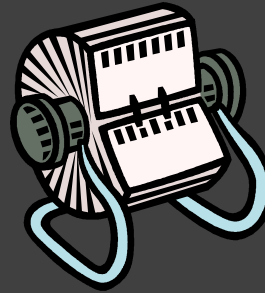

# ■ ■ ■ Project Update

- Primary Contacts
- Legal Aspects
- Project Website
- Project Goals

# ■ ■ ■ Primary Contacts

- Now have on file primary contacts for:
  - WADNR
  - WDFW
  - US BLM
  - WSDOT
  - WA DSHS
- We're working on a list for primary county contacts (by contacting counties)

# ■ ■ ■ Legal Aspects

- Met with Attorney General Office
  - AG's are interested and willing to help
  - Currently reviewing case law
  - Committed to working with the prosecuting attorneys to develop a better solution for all
  - Clarification of "...a list of individuals..." and "...any commercial purpose."
  - We hope to have something in the next few weeks

# ■ ■ ■ Project Website

- <http://depts.washington.edu/wagis/projects/parcels/fmg/>

# ■ ■ ■ Project Objectives?

- To provide common definitions for cadastral information found in public records, which will facilitate the effective use, understanding, and automation of land records; and
- To provide consistent attribute definitions and domains to enhance data sharing and cross-county utility; and
- To provide a standard for the definition and structure of cadastral data products that facilitates data sharing and protects and enhances the investments in cadastral data at all levels of government and in the private sector; and

# ■ ■ ■ Project Objectives?

- To develop a data sharing agreement that protects the rights of data providers while facilitating data sharing among end users; and
- To develop data access and distribution protocols that are appropriate for the entity utilizing the data product;
- To define a methodology for managing historical cadastral data products; and
- To develop a conceptual model for updating and publishing cadastral data products over time; and
- To identify parcel data production needs and enhance capability and infrastructure across the state.

# ■ ■ ■ Discussion: Standards

- My view
- Review existing cadastral standard
- Discuss available parcel models
- Expected outcomes:
  - Clear understanding of the need for data standards
  - Identification of committee members

# ■ ■ ■ Data Standards – Luke's View

- Three components of Parcel GIS
  - Production
  - Publication
  - Consumption
- FGDC/ESRI focus on production
- Data publication standard is current need which over time may evolve into a data transfer standard

# Existing Cadastral Standards

- <http://wagic.wa.gov/Framework/cadastral/>
- [http://www.fgdc.gov/standards/standards\\_publications/](http://www.fgdc.gov/standards/standards_publications/)
- Where did the first state cadastral effort succeed/fail?
- What new opportunities exist?

# ■ ■ ■ Parcel Models

- Are they appropriate?
- What are the pros/cons?
- Can we even talk about models without understanding the current 40+ parcel production models?

# ■ ■ ■ Committee Needed?

- Need to understand what has succeeded and why?
- Need to have consistent publication format across private/state/fed/county lines?
- Need to review existing WA standards and their relevance?
- Need for statewide unique IDs?
- Need for archival methodology?

# ■ ■ ■ Next Steps

- July meeting
  - Busy month for many – postpone?
- August meeting
- Switch to every other month schedule?
- Action items
- Future agenda topics
