

RED CROSS TO SPEND \$75,000,000 FOR WAR WORK

\$30,000,000 of This Sum Has Already Been Expended. Says Council in Report on Financial Conditions.

WASHINGTON, Friday, Jan. 11.—Appropriations aggregating approximately \$75,000,000 have been authorized by the Red Cross Council since its creation, May 10 last, up to December 28, the council reported last night in a statement giving the condition of its finances as of the latter date. Of this sum \$30,000,000 actually has been expended. The total collections from the \$100,000,000 war fund subscriptions have amounted to about \$72,000,000.

Officials estimate that at least another \$6,000,000 will be collected from the fund subscriptions and some \$3,000,000 of this fund retained by certain chapters on account of the 20 per cent which the chapters are to receive for local war relief work will bring the total of the fund to about \$100,000,000.

From this sum must be deducted about \$19,000,000 for local chapters war relief work. In addition to the \$3,000,000 already retained and an estimated sum of \$1,200,000 to be paid to chapters out of the fund yet to be collected.

\$88,000,000 Available. This would leave for expenditures out of the war fund, about \$88,000,000.

The total amount appropriated for Red Cross work in France is about \$27,000,000. After certain deductions are made from appropriations already authorized there will be available for further appropriations an estimated sum of about \$23,000,000.

The estimated balance, including collections yet to be made, is \$100,000,000 subject to outstanding authorizations for expenditures.

The Red Cross membership has increased from less than 500,000 last May, to an estimated total of 22,000,000 today, while in the same period the number of chapters has increased from some 650 to about 15,000. In addition to these chapters the Red Cross is working through operating commissions in France, England, Italy, Serbia, Russia and Rumania.

U. S. TO SEND MORE WHEAT TO ALLIES

90,000,000 Additional Bushels to Be Released—Enforced Saving Planned.

WASHINGTON, Friday, Jan. 11.—Ship losses and crop failures abroad have brought about such a serious food condition in the Allied countries that the United States is planning to release 90,000,000 bushels of wheat, although the country's export surplus had been shipped by the American people will be asked by the food administration to cut their consumption to the amount to be exported.

The American people will be asked by the food administration to cut their consumption to the amount to be exported. Unless they do the nation is threatened with a flour shortage in May before the new wheat crop is harvested in June.

The food administration is considering legislation to make the saving of wheat compulsory and has approved a bill which would require the saving of wheat of the food control bill, to enforce wheatless days. Proposals for mixed flour and for a form of war bread of mixed grains also are under consideration as possible measures to reduce the use of wheat flour.

In preparation for dealing with the situation the food administration has decided to purchase from the mills 30 per cent of their output. Out of the flour purchased it will supply the Allies, the Army and the Navy and will maintain reserve stores to meet any local shortage that may arise.

The food control bill, which probably will bring an early determination of a policy respecting the balance to be maintained between food and troop shipments. A decision will be left largely to the Allies since they best can determine which will be more useful to themselves in prosecuting the war.

AGITATORS HELD AT U. S. REQUEST

Sixteen Men Arrested in Connection With Shilka Demonstration Denied Liberty.

Sixteen men arrested on the waterfront since 13 during a demonstration following the arrival in Seattle harbor of the Russian ship Shilka, were denied their liberty yesterday afternoon when Presiding Judge Kenneth Macintosh in the Superior Court declined to grant a writ of habeas corpus applied for by A. G. McBride, an attorney.

McBride alleged that the prisoners have not been charged with crime, that they are denied bail or conference with counsel. Assistant United States District Attorney Ben L. Moore appeared for Chief of Police E. W. Aron and told the court that the city is holding the prisoners at the request of the federal government, which is investigating their records.

Some of the men, Moore said, had failed to appear for their selective army, others were seeking to evade other provisions of the draft law, and yet others are being held pending advices from Chicago, where the government is prosecuting a large number of I. W. O. members.

The men named in the petition were Sol Ehrlich, George Pithin, Anton Schmidt, A. Helin, John O'Brien, Sam Robinson, Ernest Ludwig, Oscar Johnson, H. Burns, Jack Mills, S. Fedorova, Peter Keenan, J. Warrness, J. H. Manning, H. Lasky and Harry Lea.
