COOK AND WATTELET SEEK AUTHORIZATION

Cantonment Commander and War Department to Be Asked to Accept Proffer of Pacific Coast International League—Schedule Meeting Set for Early in March.

CAPTAINS T. G. Cook and L. A. Wattelet, the former Camp Lewis athletic director and the latter a company commander and former owner of the Victoria Northwestern League franchise, yesterday expressed their approval of the Blewett plan for Camp Lewis baseball.

In a modified form it is to be put up to the commander of the

cantonment and the War Department for acceptance.

If accepted, teams of the Pacific Coast International League, as the Northwestern is now known, will play at Camp Lewis twice a week against the crack team which the cantonment is expected to have next spring.

The provisions were gone over thoroughly at a conference at the Seattle Hotel in which Captains Cook and Wattelet joined with the club owners and president of the Pacific Coast International. While at least some of the men now in camp will probably

be gone before another spring and summer rolls around, still there will be some fine material there undoubtedly. Red Baldwin, Red Oldham, Walter Mails, Charley Schmutz, Bill McIvor, Sharkey Sherett, Ten Million, Charlie Mullen, Louis Guisto are just a few of the good ball players at Camp Lewis today, to say nothing of a host of California, Oregon, Washington, Montana and Idaho bushers who are gathered there.

Judge McCredie, the portly Portland magnate, is the only man to cast cold water on the plan. Judge Has His Joke.

"We are liable to have to carry an extra outfielder in order to accommodate the soldier boys," he said. The other magnates all sat up ready to take notice.
"If that big boy of mine, Louis

"If that big boy of mine, hours Guisto, ever gets to hitting them on that big field over there, there won't be enough outfielders in the league to chase 'em down."

The magnates heaved a sigh of relief. The judge had them all guessing all during the session with that wit of his.

The circuit as organized by the magnates last night will probably go through. The Butte club will be run if the league has to put in new own-rac according to the word given out. indebtedness to the league, a matter of about \$1,400, forfeited its franchise and that opened the place for Portland to step in.

Robert Brown, president of the Vancouver club, was appointed a committee of one with full power to act, to visit Butte and either start the present club going again or arrange for other local parties to take over the franchise.

The schedule meeting for the league will be held early in March, Judge McCredie will be appointed chairman of the committee, with two other magnates to assist him. The judge is recognized as a schedule expert and his talents will be put to work.

The magnates were decidedly optimits over the prospects for the coming season. They see nothing but success abead.

mistic over the prospects for the coming season. They see nothing but success ahead.

Twilight Games Probable.

Bob Brown announced that he would play afternoon games Wednesday and Saturday in Vancouver and twilight games Tuesday, Thursday and Friday. In that manner he expects to be able to derive full benefit from the thousands of shipyard workers in British Columbia.

Wednesday in Canada is a half holiday the year around while Saturday is similarly affected in many businesses. The twilight problem was tried out by the amateur league in Vancouver last summer after the Northwestern League had suspended and worked out admirably. The crowds were first-class and the league ended with a balance of over \$1,500 in the treasury.

The Vancouver magnates plan struck the other owners forcibly and it would not be surprising if more of the clubs tried it, arranging for special transportation from the shipyards should it prove advisable.

Russ Hall, McTeddie and Dugdale all listened attentively to the red-headed Canadian owner's plan.

While none of the magnates was prepared to state just with wontd lead his team during the coming season, while none of the magnates was prepared to state just with wontd lead his team during the coming season. The season of the proper that there would be few changes. Pug Bennett may not be enficed back to Vanchuver as he has a fine position with one of the leeal shipyards but Nick Williams at Spokane. Tealey Raymond at Tacoma and Bill Leard at Scattle, are believed to be sure to be back. With Paddy Sleiin handling the Portland club the Vancouver and Butte teams are the only ones needing managers. There is a chance that Herb Hesler with land in Rutte, it is said, while Fob Brown is soing to start soutting at one.

Brown intends to stick by lies mearmed game which is developing ranidly and have a manager in full clarge on watches the finances.

Pilot Says Cubs Need More Help Than Cardinals

Hendricks Won't Wreck St. Louis Team to Help Out Mitchell.

WHATEVER chance the Chicago Cubs had of landing Roger Hornsby disappeared when the St. Louis Cards signed Jack Hendricks of the Indianapolis club as manager. At least that is true, provided the St. Louis officials permit the new manager to arrange his dwn trades and sales to arrange his own trades and sales

to arrange his own trades and sales. Hendricks made it plain recently that he is out to build up a winning ball club at St. Louis, not to replenish the treasury temporarily by sale of star material.

Hendricks talked at length regarding the proposed sale of Hornsby to the Cubs. In part he said:

"Right now the Cubs need more help to build up a ball club than do the Cardinals. For years I have been keeping close watch on the major league clubs and I think I am fairly competent to judge of the strength of the various teams. To me it seems it would be custer to build the Cards into a pennant contender than to patch up the Cubs to the same extent.

Card Taleut Outshines Cubs.

Card Talent Outshines Cubs.

Why should St. Louis sacrifice its all club to help the Cubs? I am not chimins any permants for the Cards inch now, but I am saying that I will be the limit to be up there in the fight of the limit to be up there in the fight of the limit to be up there in the fight of the limit to be up there in the fight at satisfied we have better material on which to construct a pennant winner than Mitchell has.

"The idea in baseball is always to beat the winner. That means to beat the team that copped the pennant in the previous race. It helps the whole learne, in the matter of attendance, to have the champion club set on the rocke. That's just baseball. I've met it all through my experience in the game. Every one is always out to beat the winner. Card Talent Cutshines Cubs.

maer. St. Louis Deserves Winner.

St. Lonix Deserves Winner.

"Itut in this case, if the idea is to leat the Giants, why not let the rest of the teams kick in with players to the Cardinals and let us be the ones to beat McGraw's men. St. Louis is a great ball town—perhaps the greatest in the country—if given a chance to reet for winners, as have Cajcago, New York, Beston and Philadelphia."

Hendricks was not picking on the Cubs particularly when he related his views on the sale of stars. Jack has no gradies against Chicago, for that has been his home practically all his life. His comparison of the relative prospects of Cards and Cubs was prought out the charge the Cards have have a prominently in print recently as boung ready to dispose of their star talent for each thought of the relative world no meetical flormsby it is fair to presume he had the crack shortstop in mind.

The good luck came last Tuesday night, when Rube produced more evidence.

He showed me a foot of movie film in which he was shown demonstrating to a bunch of his hired hands how to buy a drink.

There was no question about what he was doing.

There was n regular bar, with a regular brass rail in front of it and the usual towel hauging on each end, and a regular bartender behind it. Everything in the pleture was all right except for the part Rube was pluying.

Not even in the palmy days of wide open cities can any of Rube's friends remember his buying a drink for as many friends as there were in that foot of film.

But at any rate it convinced us as to the Rube's past history. In no place but a play would he ever have risked that much money without a chance of any return.

I hope this convinces you as it did me.

Dear Sir: The answer to this question involves a story.
First of all, your dear conch was once interviewed by a newspaper man. In his interview he expressed catificance of heing able to trim Brondway High School in an impending football battle. The game was a walk-away, but, sad to relate, for Brondway, not West Seattle. I think the score was 72 to 0.

Just why your dear conch should retreat under a barrage of hine smoke at each appearance of a newspaper man or photographer, we don't know. But as reporters are not equipped with gas masks, and cameras will not work effectively in Simoky atmosphere, it has been topossible for us to work. We have one photograph of him beating a masterly retreat, but the art room censored it.

You see. Bobby brought three tan colored shirts from California with him to aid him in withstanding the rigors of this northern clime. And Bobby 'most always gets into those shirts, or, rather, the one he is wearing that day, wrong side to, the first time he tries.

And that is one thing a hockey player is always careful about.

Cully took charge of the teams just
a few days before the opening of the
league, but when they took the ice
for the initial game they soon showed
the combination work, which is essential in the winning of games.

The first game of the double-header
Friday night will see the winners clash.
Ames made an impressive showing in
their decisive defeat against Duthies,
and the game should carry much enthusiasm.

Although losing to Skinner & Eddy,
the Construction team put up a hard
battle and were it not that Lobley tried
to cut short his penalty after one of
his teammates already was doing time
on the bench, the game perhaps would
have waged longer.

But Lobley was too interested in the
proceedings to serve his full penalty,
and when the timekeeper was looking
elsewhere Lobley sild into the game.
Some one noticed the vacant seat and
he was brought back with an additional
penalty pasted onto him. In this
period, the Skinner & Eddy team
tied the score, and went one better in the
overtime play before Lobley served out
his time.

Last week's games were slow in getting started, and the patrons were unable to get their chance of the ice as
was announced by Clare Bowman, president of the Seatule Construction yards.
This week, however, Bowman will insist on the first game starting prompt. This week, however, Bowman will insist on the first game starting promptly at 8 o'clock and the second immediately following. This will allow the second game one hour, which should be over by 10 o'clock. The rink can then be used for skating until 11 o'clock.

Dooin Regrets Sale Of Alexander and Killifer to Cubs

Col. F. S. Lore,
City,
Dear Colonel: Will you kindly tell
me where Charley Tobon, the Portland
hockey player, was born?
—HOCKEY FANETTE. Charley Dooin, once manager of the Phillies and a man who did much to develop and bring out Alexander's reat skill as a pitcher, calls his sale by William F. Boxer to the Chicago Cubs little short of German ruthlessness. Ho is quoted as saying:
"I was thunderstruck when I read the news. Money can never replace wonders like Alexander and Killifer. Alexander was the greatest pitcher in the history of the game, and it is a matter of much personal pride to me that I was responsible for his development.
"Selling Alexander, to my mind, is something like the practice of the Germans in demolishing a cathedral or destroying priceless works of art."
All of which goes to show that there are, after all, some men in baseball who hold sentiment above price—but, come to think of it, Dooin is just now out of baseball. Miss Hockey Fancette,

concerning the Pittsburgh middleweight. They differ on the cause of
his great showing, but seem to have a
unanimous idea of the effect.
George Chip, the erstwhile Newcastle
miner, has been against the Smoky
City buzz-saw a couple of times, and
has some suggestions to make about
him. Chip also is very well satisfied
with what has gone before, as far as
Greb is concerned, and is none too
eager to have any more of the Greb
game.
"I've had plenty of chance to study
this fellow," Chip said recently, "and
have reached the conclusion that he
has just one trick that makes him
good. That is his ability to make an
opponent so gosh-darned tired that he
can't keep up the pace Greb sets.
"That's all there is to it. If you
want to beat Greb you've got to figure
out some way of merely sticking along
with him. Unless a man is in perfect
condition he hasn't got a chance with
Greb unless he should happen to catch
him with a solid swat on the chin and
knock him out. That also is almost
impossible, for Greb has an extremely
effective defense, without seeming to
have any at all. His defense doesn't
look like anything at all because he
handles himself so awkwardly, but just
the same nobody is able to puncture
lim to any great extent.
"I do not agree with those who say
the Pittsburgh man is merely a flash
and will not stand up long. I think
he is a great fighter and that he will
keep on demonstrating it if he has
good luck and doesn't break an arm
swinging the way he does.
"One thing about Greb that fives
him a great advantage over other men
in the middleweight division is that
he is young and fresh, whereas the
others are a bit worn and frayed from
long usage. His great natural stamina
makes it possible for him to set a pace
that few can carry with him. That
tells the whole story."
