FEW DROPS AND CORN LIFTS OUT

Says There Is No Excuse for Cutting Corns and Inviting Lockjaw.

Sore corns, hard corns, soft corns or any kind of a corn can harmlessly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This simple drug, while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.

No Trouble to Keep Skin Free From Hairs

(The Modern Beauty)

There is no need for any woman to countenance superfluous hairs, because with a paste made by mixing some powdered delatone with water it is easy to get rid of them. The paste is applied for 2 to 3 minutes, then rubbed off and the skin washed. This treatment will rid the skin of hair without leaving a blemish, but care should be taken to see that you get real delatone.—(Advertisement.)

START WINTER COURSE

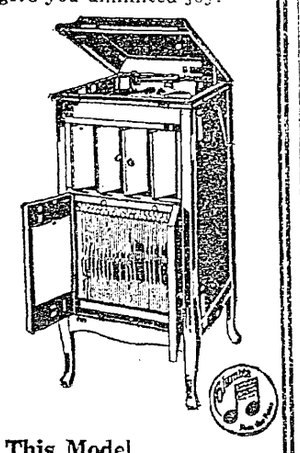
The winter short course in mining at the University of Washington has an enrollment of seventeen. All parts of the United States, Canada and Alaska are represented. Quartz mining appears to be the most popular, with placer mining second.

Our Credit Plan

A most convenient yet dignified way of enabling you to gratify your desire for good music.

The Incomparable Columbia Grafonola

will bring the best music of all the world into your own home. Just a small deposit is all that stands between you and the possession of the instrument that will give you unlimited joy.



This Model

$95.00 and the convenience of paying for it weekly or monthly costs you nothing extra.

May be had in Oak, Mahogany or Satin Walnut, beautifully finished in every detail, with the many exclusive Columbia features, including the *Individual Record Ejector*—just a touch of the button, and any record you wish is instantly ejected.

Come in and let us demonstrate the wonderful tone and listen to all the records you like. We have one of the most perfectly appointed rooms on the Coast for your convenience. You are always welcome, whether you purchase or not.

SEATTLE LEADS U. S. IN RECRUITING FOR SHIPYARDS

Order to Start Organization Finds City Weeks Ahead of Nation and With 5,000 Men Ready for Work.

Just as Seattle was first in giving to the Shipping Board a steel ship for Uncle Sam's war purposes—the giant freighter Seattle—so is Seattle first in recruiting volunteers for work in her shipyards in an effort to meet the government's shipbuilding program.

"Start organizing at once," telegraphed Chairman E. N. Hurley of the Shipping Board at Washington, D. C., in a message to chairmen of all state defense councils yesterday. The wire announced the launching of a plan to recruit 250,000 shipyard workers for plants throughout the country.

Seattle's answer to this patriotic call today was: "We began organizing weeks ago and more than 5,000 men are already enrolled and ready to go to work."

So that Seattle is not only first to answer the summons, but actually is weeks ahead of other cities in this work.

Big Progress Made.

F. A. Silcox, special agent of the Department of Labor, who is in charge of the shipyard labor employment offices in this district, announced today that such progress now is being made in Seattle that the Seattle yards probably will be enabled to operate on a two-shift basis within the next 100 days.

The work in this district is being carried forward by two different sets of men, a corps in the field, which attends to the recruiting of men for shipyard work, and another at the employment offices on the ground floor of the Immigration Building, foot of Union Street. The latter has charge of the registration of the workers and their placement in the plants.

Volunteer workers now are appearing in great numbers at the employment office, hundreds of names being added to the rolls each day. Under the plan worked out here the shipyards, unions and the Department of Labor have joined hands in cooperation and applications for work in the yards must be made at the government office.

All of the additional men required in the Seattle yards, under this arrangement, are obtained from the government registration rolls.

2,500 Mechanics Needed.

Special Agent Silcox said today that the Seattle plants now require 2,500 extra skilled steel mechanics, but that when these are obtained they will have to be absorbed gradually. He explained that when an additional machinist is required the yard must delay his employment until the necessary helpers for him can be obtained.

A cross-section analysis of the workmen's registration cards now on file here, according to Silcox, shows that between 75 and 80 per cent of the men who have thus far volunteered, are common laborers. Of the remaining number registered he said that three-fourths of them are building trades men, such as carpenters, painters, builders and plumbers, of whom only a limited number are required.

Silcox emphasized a statement that Seattle now has a surplussage of building trades men, and that men in the outlying districts of the state, as well as those in other parts of the country contemplating entering the shipyard field here should bear this in mind.

Seattle's real need at present, the federal officer pointed out, is for skilled steel workers, such as boiler makers, riveters, structural iron workers, moulders, coppersmiths and machinists. In the wooden shipbuilding work expert shipwrights and caulkers, especially the latter, are urgently required.

250,000 VOLUNTEERS FOR SHIPYARDS SOUGHT

WASHINGTON, Tuesday, Jan. 15.—Plans for recruiting a volunteer reserve of 250,000 shipyard workers were announced last night by Chairman Hurley of the Shipping Board.

The men will be enlisted with the aid of state councils of defense and the labor department's employment agencies. They will be fed into the yards as fast as their services can be utilized. It is estimated that fully 100,000 will be placed within the next five months.

Approval yesterday by the Senate commerce committee of a bill appropriating $80,000,000 for providing housing accommodations for shipyard workers led Shipping Board officials to believe that the entire reserve may be put to work before the end of the year.

Plans for forming the reserve were outlined last night in a telegram sent by Chairman Hurley of the Shipping Board to the chairmen of all state defense councils.

GILL SHIES HAT IN RING BY FILING DECLARATION

Mayor H. C. Gill this morning filed a declaration of candidacy for reelection. He procured a blank application several days ago and today filed it with the city clerk without comment.

No significance is attached to the mayor's filing today, as he had said last week when he failed to file on Saturday that he would either make his declaration today or on Saturday, the last day on which candidates may file.

Coincident with his filing for mayor, Gill took steps to acquire a new residence in the Rainier Valley. This plan also has been under contemplation for some time and practically all arrangements had been made.

CALLS ON OWNERS TO RUSH NEW BUILDING

General Housing Committee Points Out Need of Quick Action to Care for Influx of Ship Workers.

Only by active cooperation of homeowners and hotel men can Seattle take care temporarily of the 20,000 or more additional shipyards workers who will begin arriving in large numbers early in February. This warning was given today by the general housing committee of the Chamber of Commerce and Commercial Club of which Frank McDermott is chairman.

From February 1 the influx of newcomers will be steady and increasing in volume, the committee said. Before fall it is likely the new population will amount to at least 40,000, for many homeseekers will follow the men employed by the government for the shipyards.

Every available laborer, of which there is now a large number unemployed, will be put at work as soon as the skilled workmen are on the job. This assurance was repeated today. For 3,000 skilled workers, for example, several thousand new laborers will be required. The visible supply of common labor will be absorbed quickly when the new army of skilled men is on the job.

Depends on Seattle.

Another fact was established today: the government is not planning to build any dwelling houses in Seattle, but is depending altogether upon Seattle to provide decent housing for all who come. The owners of vacant lots and dilapidated property are expected to get busy at once in the "build a house" campaign, to provide permanent homes for the newcomers. Temporarily they will be housed in hotels and private homes, every vacant house being utilized.

C. J. C. Dutton is chairman of a committee on furnished rooms, which will make a thorough canvass beginning February 1. A preliminary survey shows that Rainier Valley, for example, can take care temporarily of about 2,000 men, and 500 can be housed in the Beacon Hill district.

A census has been taken of vacant houses, disclosing the fact that several hundred houses are unoccupied, but most of them are unfit for occupancy. Efforts are being made to induce the owners to put them in modern condition.

Rhodes Takes Lead.

Albert J. Rhodes, president of the Chamber of Commerce and Commercial Club, has started the build-a-house campaign by contracting with the Hurley-Mason Company for the immediate construction of twelve modern dwelling houses. Many property owners have notified the chamber of their intention to follow his example. However, the committee said today, needs demand immediate action. The plan is to forward a great building and buying campaign and reports indicate the new houses will be taken faster than they possibly can be completed.

Several hundred hotel men were represented at a conference this afternoon with F. A. Silcox, the government's representatives, and Grosvenor Folsom, chairman of the housing committee's hotel and dormitory division. The hotel men said they would go the limit in cooperating with the government.

B. L. Lambuth is chairman of a permanent building committee, which has charge of the build-a-home campaign. Voluntary activities are expected to supplement substantially the work of all committees.

Statement of Committee.

The general housing committee said today: "Seattle must wake up and get busy in providing temporary homes for the thousands who are coming and the permanent home-building must go forward with a vim. The emergency cannot be met even half way without thorough cooperation. Seattle is to be first to receive its quota of shipyard workers and this city is the testing place for the whole mobilization program of the government. Nothing must be allowed to interfere with success."

RECEIVER APPOINTED

Superior Judge Walter M. French yesterday afternoon declared the Prudential Savings & Loan Association insolvent and appointed H. B. Butler permanent receiver. The property of the association at 105 Cherry St., now in the hands of State Auditor C. W. Clausen and C. W. Karner, state inspector of building and loan associations, was ordered turned over to Butler. Judge French also allowed the present board of trustees thirty days in which to have the shareholders meet for the purpose of levying an assessment to make up all deficits and, if possible, make the corporation again a going concern.

Mrs. P. O. Stuchell Tells How She Cured Her Son of a Cold.

"When my son Ellis was sick with a cold last winter I gave him Chamberlain's Cough Remedy. It helped him at once and quickly broke up his cold," writes Mrs. P. O. Stuchell, Homer City, Pa. This remedy has been in use for many years. Its good qualities have been fully proven by many thousands of people. It is pleasant and safe to take.

U. S. ORDERS ARREST OF WRECKER OF SPOKANE

United States Attorney-General Thomas W. Gregory has ordered the arrest on sight of "William Swanson," who was steering the steamship Spokane of Seattle when she crashed on the Idol Point rocks last November.

Orders were also received from Washington, D. C., yesterday afternoon instructing the local federal authorities to intern Carl Else, a German, believed to be "Swanson's" confederate in a plot to wreck the Spokane. The government ordered him interned for the period of the war. Else, however, is at large.

An order for the internment of Carl Wiltsche, who says he is an Austrian, is expected in a day or two. Wiltsche was aboard the Spokane with "Swanson" and Else and is believed by the government to be a confederate of the two other men. Government agents also believe he is a German. Wiltsche is now incarcerated in the immigration detention station in Seattle.

These are the latest developments in connection with the Spokane disaster, the news being obtained this morning from government sources.

Sought in San Francisco.

The search for "Swanson," who is said by government sources to have masqueraded as one of the Spokane's quartermasters, extended today to San Francisco. He is believed to be a member of the crew of the schooner Mary E. Foster which sailed December 11 from Port Ludlow for Honolulu, later sprung a leak in heavy weather and had to put into San Francisco a few days ago. The search in San Francisco is being conducted at the request of the federal authorities here.

A blanket order for "Swanson's" arrest has been sent all over the United States. According to government sources, he is suspected of being implicated in a nationwide plot to destroy American shipping. If captured, it is said, he will be turned over to the military authorities.

Officials of the Pacific Steamship Company, owner of the Spokane, today declared there was no basis for the statement that "Swanson" masqueraded as a member of the crew. They said that he actually was a member of the crew and properly signed on.

It became known today that the "Swanson" case has developed into a matter of grave concern to official Washington.

The Spokane crashed on the Idol Point rocks, Llama Passage, B. C., the night of November 22, the wheel being in charge of "Swanson."

"Swanson," Else and Wiltsche were brought south on the steamship Princess May, landing in Vancouver. While they were en route south the United States Department of Justice received a wireless message from the Spokane's officers asking that the trio be arrested.

Arrested and Released.

The three men were arrested when they arrived in Seattle by Lieut. F. W. Becker, naval intelligence officer in this port, but were released December 1. An order was issued for the rearrest of the men. Else and Wiltsche were captured but "Swanson" had disappeared. Later Else was released a second time, but Wiltsche was held in custody.

Government agents are searching for Else and if captured, he will be interned for the period of the war, as ordered yesterday by Washington, D. C.

The government is drawing the lines tighter regarding the employment of Germans on American ships. It is said that one vessel recently had five Germans in her crew.

The Spokane is now undergoing repairs in the plant of the Seattle Construction & Dry Dock Company, having been floated from the Idol Point rocks and brought back to her home port.

WAR VETERAN GONE

Ignatius A. Navarre, former county engineer of Chelan County, died at the family home at Lake Chelan last Friday. He was born in Monroe, Mich., and served in the Union Army with the engineering corps. After the war he moved to California, later coming to Washington territory. He moved to Lake Chelan in 1886. He is survived by his wife, Mrs. Elizabeth E. Navarre, and a son, Joseph R. Navarre, both of Chelan, and a daughter, Mrs. James Flick of Seattle. He was 73 years old. The body will be cremated.

CAMERA MEN WILL FILM COMMUNITY ACTIVITIES

Motion picture camera men will attend the "redletter" days of Community Week, Thursday, Friday and Saturday, at the Chamber of Commerce and Commercial Club and film the visitors who attend in groups, such as the police, firemen, labor union committees, club delegations and student bodies. These scenes will be shown throughout the country.

Wednesday afternoon at 5 o'clock the Orpheus Club of Tacoma, composed largely of members of the Commercial Club, will be guests of honor at a dinner at Blanc's Cafe. Following the dinner the forty or more Tacomans will appear with the Philharmonic Orchestra at the Metropolitan Theatre.

To Honor Tacoma Club.

Special honors will be shown the Tacoma Orpheus Club because of its fame for unusual achievements during the last fifteen years. It won first prize, for instance, in competition with all similar organizations of the country, at the Panama-Pacific International Exposition at San Francisco.

Brig. Gen. F. S. Foltz has been requested to give special permission for all soldier-teachers to visit the Chamber Thursday, Educational Day. Chief Joe F. Warren has promised to facilitate the visits of squads of policemen. Special invitations to all labor unions have been issued through the Central Labor Council, likewise to the University faculty and students, the high school teachers and student bodies, the Press Club and Ministerial Federation.

Friday will be Civic Day and Saturday will be the Chamber's Origination Day, when all officers will be elected for the year.

TO GIVE CARD PARTY

Mrs. H. I. Machenheimer of 2228 Seventh Ave. will give a card party Wednesday evening, January 16, at 1531 Fourth Ave. at 8:30 o'clock. The affair will be given for the benefit of the 7th Company, Washington Coast Artillery.

STEFANSSON FINDS NEW ISLANDS IN ARCTIC

FAIRBANKS, Alaska, Tuesday, Jan. 15.—(By cable to the Associated Press.)—Several new large Arctic islands were discovered and claimed for Canada in the spring of 1916 by Vilhjalmur Stefansson, the Arctic explorer, according to Capt. A. Lane, who arrived here last night from the Arctic bringing direct news from the explorer, who, he says, is spending the 1917-18 winter in the Northern seas at Bartel Island.

The explorer, Captain Lane said, is preparing to make a 300-mile dash over the ice north and west of the Western Canadian Arctic Coast during the summer of 1918, in search of more new land.

Stefansson intends to leave his present base next April and hopes to reach Wrangell Island, off the Northern Siberian Coast in July or August. He will spend the 1918-19 winter on the island and end his explorations by sailing through the Bering Straits to Nome, Alaska, in 1919.

Captain Lane denied reports that Stefansson reached Port Yukon, Alaska. The explorer gave Lane messages to file to the Canadian government at Ottawa and the fact that the captain filed them at Fort Yukon probably gave rise to the belief, he said, that the explorer reached the fort.

The islands Captain Lane reported Stefansson found, it is believed here, evidently lie near a large continent the explorer discovered northwest of Prince Patrick Island in 1914. Banks Land and Prince Patrick Island lie near each other in the Western Arctic and northwest of them is a large stretch of frozen waste heretofore unexplored.

ADD TO POLICE FORCE

Out of forty policemen who have served in a special capacity since last July, twenty-five were notified this morning by Inspector of Police Claude G. Bannick they would be enrolled as regular members of the department. They passed all examinations some time ago.
