"You women know what Seattle needs at this time. You want a clean and wholesome city in which to live and bring up your familles, just as I do: just as a very large majority of our men do. They want Seattle, at this epochal time in her history to have the chance she deserves for commercial and civic betterment, an op-

this epochal time in her history to have the chance she deserves for commercial and civic betterment, an opportunity to show that she has outgrown certain things that now are again attempting to saddle upon an outraged citizenry.

"I say that if I am elected mayor the housecleaning at the city hall will be thorough. The men there who are found to be dishonest, incompetent or inefficient, or who are not, in short, doing their duty, will go out. I also say to you that I will reappoint J. F. Warren chief of police. Thus far I

#### 106 COLUMBIA ST. COR. FIRST AVE.

By DR, EDWIN J. BROWN, D. D. S Now at 106 Columbia St.

Now at 106 Columbia St.

I have left the imitations of my name and signs on First Avenue and moved my Dental Offices to the corner of First Avenue and Columbia Street, just across the street from my old location. My new entrance is No. 106 Columbia, midway between First and Second Avenues. I will not raise my prices because of the war, but I do expect to increase my dental practice so that the increased business will offset the increased cost of doing business because of the war.

I want to be known as the only man in Seattle who did not raise his prices because of the war.

am the only candidate to indorse Warren and promise his reappointment.

"I unhesitatingly affirm that Warren will remain where he is if I am elected. I say this, knowing full well that it will cost me the votee of those persons who wish to break the law, but I don't care how many votes I lose on the strength of the announcement. I don't want the votes of those people who seek an opportunity to break the law nor of those others who seek some special privilege.

"I believe in municipal ownership absolutely. I was one of the early workers in the fight to obtain the first municipal railway line in Seattle. That fight was made at a time when some of the men who now claim to be such warm friends of the municipal railway were not to be heard. Joe Smith and I campaigned for the bond issue for the first city line and among other things distributed 1,000,000 pieces of literature urging it upon the people of the city." Other speakers who appeared at the meeting and were heard included Austin E. Griffiths, Ralph Horr. J. E. Bradford and C. J. France, all candidates for mayor. Griffiths spoke in favor of a women's detention home in the cleanup movement, declaring that the city has considerable property on which such an Institution could be located. "I we are to make any real effort to clean the city."

#### KAISER FAVORS PEACE BY AGREEMENT, BERLIN UNIVERSITY MAN SAYS

BOTTERDAM, Wednesday, Jan. 36.—
Emperor William is in sympathy
with the movement for peace by agreement, according to Prof. Hans Del
Bruecke of the University of Rerlin,
as quoted in an Interview with The
Nieuwe Rotterdamsche Courant's Berlin correspondent.
Professor Del Bruecke, who himself
is a peace-by-agreement advocate, said
the warring nations were now divided
into camps, the first comprising those
who, like Premier Lloyd George in
England and Von Tirpitz in Germany,
wanted a fight to a finish, and the second constitling of those, who, like Emperor William, the German government, the Reichstag majority and the
great majority of the people, were
working for a negotiated peace.
Germany, declared Professor Del
Bruecke, has no thought of infringing
upon the Integrity or sovereignty of
Belgium, and he regretted that Chancellor von Hertling in his Reichstag
speech did not say so definitely. Nothing was further from the chancellor's
intention than the carrying out of a
policy of force in Professor Del
Bruecke's view, and the masses of the
people were behind him.
Professor Del Bruecke pointed to the
furlous attacks by the Pan-Germans
upon the emperor-something hitherto
unheard-of in Germany—as sufficient
proof of the emperor's sympathy with
a peace by agreement.
