**Refrigerators**

A good refrigerator means food conservation; a poor refrigerator is the most expensive thing to have in your home. By over-consuming ice it means enormous ice bills. By poor air circulation it means spoiled foodstuffs. A FRIGID refrigerator means small ice bills and the satisfaction of knowing at all times that its contents are always fresh. Let us show you why.

**FUNMAKERS COME TO SEATTLE  
IN CORT'S NEW FARCE COMEDY**

Echlin Gayer and Edith Lyle.

Echlin Gayer, who shares in the fun-making with Louis Fennison in John Cort's farce comedy success "Johnny Get Your Gun," now at The Metropolitan, as the "Duke of No Moor," is typical of the part without the aid of make-up. Gayer was born in London and began his stage career in that city at an early age. Gayer was engaged by Manager Cort to create the part he is now playing in the original production at the Criterion Theatre, New York, last season. The actress in the picture is Edith Lyle, also a prominent member of the cast at The Metropolitan.

**GERMAN VOTED OUT  
OF HIGH SCHOOLS  
IN SEATTLE**

Will Be Dropped at End of Present Year, Directors Are Unanimous in Decision.

Seattle school directors last night voted unanimously to drop German from the curriculum of the Seattle high schools after the close of the present year; discharged C. J. Jacobs, Socialist leader and janitor of Webster School for placing Socialist literature in the teachers' room and distributing I. W. W. literature during a recent election; decided to install immediately a night school course in steel shipbuilding and blue print reading and took steps to acquire new building sites for extra grade schools. At present there are but 37 students taking the German course. A year ago, before the declaration of war with Germany, the second semester of the school year began with 112 in the German classes. A few students who have not completed enough German work to be entitled to credit for ad-

mittance to universities and colleges will suffer an inconvenience by dropping the German course at the end of the year, communication from high school instructors declared. Judge Richter Winsor, however, insisted that German go out of the schools at once and called attention to the fact that he had opposed its teaching since the beginning of the war.

**Substitute for German Proposed.**  
At the suggestion of Director N. Eckstein, City Superintendent P. B. Cooper was asked to report whether or not it would be feasible to offer another foreign language as a substitute for German and in addition to French and Spanish, now taught. Though the other directors favored the idea, Judge Winsor voted an emphatic "no."

**Janitor, Jacobs, who for several years has been active in Socialist affairs, several times a party nominee and president of a company publishing a Socialist paper which has been denied the use of the mails, was dismissed abruptly, though he will continue to draw pay up to April 12. President George A. Spencer questioned the policy of dismissing an employee for cause and continuing his pay for a few days, but Director E. Shorrock, who had moved for Jacobs' removal, declared that the school board which takes him from the schools at which he was sufficient disciplinary action, while as a former janitor, Jacobs should be given time to hunt for a new job.**

**Schools No Place for Propaganda.**  
Judge Winsor, who is well acquainted with the facts in the Jacobs case, was given copies of the literature of the Socialist party and in calculating and his letter to the school board admitting he placed Socialist literature in the teachers' room and admitted he had I. W. W. literature in the school furnace room which was stolen during the six-month period.

**Shipbuilding School Proposed.**  
John B. Shorrock headed a Youngstown delegation that wished to use the annex to the new Youngstown grade building as a big industrial center where special attention would be given to training youth for shipbuilding or other similar work. At Director Eckstein's suggestion, Superintendent Cooper will make a survey of the site and report to the board. At the same time, Directors Spencer and Shorrock informed the Shorrock committee that the board's experience had proved that manual training centers in industrial centers were not as well attended as in other districts where the parents were members of professions, business men or engaged in office work. They both doubted whether the proximity of the Youngstown School to a steel mill and shipbuilding plants would help attract pupils to an industrial school.

**To Aid the Shipping Board, the directors decided immediately to establish special night classes in steel shipbuilding and blue print reading. It was reported to the board that hundreds of shipyard workers would patronize the night classes, and a request was made that the membership be limited to shipyard workers so that, with partial training, the classes could make better progress.**

**Classes to Be Open to All.**  
Several of the directors called attention to the fact that public school classes must be open to all persons, and the city superintendent is authorized to open the school on that basis. It was reported that 1,200 men are likely to enroll from one shipbuilding plant alone.

**Says U. S. Is Unable to Repay Debt to France**

America will never be able fully to repay the debt this country owes to France for her great assistance in the Revolutionary War, declared Samuel H. Piles, former United States senator, in an address to the members of the Overseas Club in its rooms at 1604 Fourth Avenue last night.

ashamed of himself in not going to the rescue of the bleeding people in danger of losing their freedom by the coward bully who struck down little Belgium.  
O. A. Pattison was chairman at the meeting. Capt. Charles Gruenais of the French navy, who came to Seattle to take charge of the steamer Arras, recently launched here for the French government, extolled the spirit of the American people.  
Two \$100 Liberty Bonds will purchase a horse or mule for cavalry, artillery, or other service.

**"Men fight like the devil on Chocolate"**  
—Brig. Gen. L. W. Waller, U.S. Marine Corps

What a tribute to the food value of chocolate!  
If "men fight like the devil on chocolate" (and we have Brigadier-General Waller's word for it) those of us who must "carry on" at home can look to chocolate as a food that will yield the utmost strength and nutriment in proportion to the cost.  
In Ghirardelli's Ground Chocolate you get chocolate at its best. It is a sustaining, nourishing food—an ideal blend of pure cocoa and finest sugar.  
At your grocer's—in 1/2 lb., 1 lb. and 3 lb. cans; a tablespoonful—one cent's worth—makes a cup.

D. GHIRARDELLI CO.  
Since 1852 San Francisco

**GHIRARDELLI'S Ground Chocolate**

**TO EXTRACT SEAL OIL**  
WASHINGTON, Tuesday, April 9.—Establishment of a plant on the Pribilof Islands to extract the oil from seal carcasses which now are thrown away after being skinned is under consideration by Secretary Redfield. After a conference yesterday with Commissioner Smith of the Bureau of Fisheries, the secretary said he intended to ship machinery for the plant from Seattle in a few weeks.

**PLAN OATH FOR TEACHERS**  
SALEM, Ore., Tuesday, April 9.—J. A. Churchill, state superintendent of schools, yesterday announced a ruling that all school teachers in signing contracts in Oregon must subscribe to an oath of allegiance to the United States. The oath will be similar to that taken by all government officers. Several un-patriotic teachers in the state recently have caused difficulties in the communities in which they were teaching.

**-the Public ON GUARD**

**THE Auto Theft-Signal** is the only device that links all elements of society in a common effort to reduce and wipe out auto thievery. This effective co-operation of the public and police with the owner makes the

**Security Auto Theft-Signal** immeasurably superior to any and all mere locking devices. It is more than a lock—it's a "signal" to the public that the owner has left his car. In the two years it has been on the market it has proven absolute protection in every case.

The Great Advantage of the Security Auto Theft-Signal over all other protective devices is that with the Theft-Signal the public can—and WILL—watch your car.

**Motorists—**  
You MUST appreciate and admit the effectiveness of this securely locked Signal PLUS the watchful eye of the public. Co-operate. Get a Theft-Signal today. Your dealer can supply you. No installation cost—cannot damage the car.

**AUTO THEFT SIGNAL \$100 Reward**

**The Theft-Signal** is simplicity itself. When the owner leaves his car he locks the Signal on the right front wheel.  
—It is in plain sight of everyone;  
—It is away from all mechanism;  
—The owner instantly unlocks it with his special key;  
—Any unauthorized person must "tamper" or leave it alone.  
In this way it enables the public to know the owner from a thief.

will be paid by the manufacturers to the person responsible, at any time, anywhere, for the arrest and conviction, as a thief, of any person operating an automobile equipped with a Security Auto Theft-Signal, or tampering with a Theft-Signal in place. Be suspicious of anyone working around the front wheel of an automobile for more than a few seconds. It is likely to be a thief trying to remove a Theft-Signal. Call the police.
