### PERSHING REPORTS 500 HUNS TAKEN BY AMERICANS

Enemy Driven Back in Monday's Counter Attack to East of Chateau Thierry.

WASHINGTON, Wednesday, July 17.—General Pershing's communiqué for Monday, reporting that 500 prisoners were taken by the Americans in their counter attack which drove the Germans back to the Marne east of Chateau Thierry. The despatch follows:

"Section A east of Chateau Thierry, where the enemy succeeded in the morning in crossing the Marne on our front and gaining some ground, our troops counter attacked and drove the enemy back to the Marne, taking 500 prisoners. In the Vosges five trench raids attempted by the enemy broke down about our fire."

"The communiqué for Tuesday reports that the cooperation of American troops with the French east of Rheims in successfully repulsing enemy attacks at all points of contact."

"The Tuesday communiqué says: 'Section A American troops east of Rheims cooperated with the French in repulsing the enemy attack. They maintained all their positions and captured prisoners and machine guns. The enemy attempted to attack our lines on a front of 1,000 yards. The attack broke down under our artillery fire.'

"Section B—The counter attack by American troops south of the Marne, July 15, was a complete success. The enemy, who had crossed the river near Fosse, was driven back with severe losses. One battalion was practically annihilated, those who were not killed were wounded or captured. Officers commanding French troops near this point, as well as others belonging to the same units, have expressed great satisfaction concerning the conduct of our forces and the result which they achieved."

### Advance Made by Crown Prince in Valley of Marne

LONDON, Wednesday, July 17.—The German Crown Prince advanced about three miles along the Marne Valley yesterday. This advance is the first since the French line of about six miles at Postigny, the most southern point reached by the invaders.

The six-mile penetration of the Germans to Postigny, east of the Marne, is only about two and three-quarter miles south of the Marne, as Postigny is only about two miles north of the Marne. The penetration is calculated from the nearest point of departure at a distance of six miles north of the Marne and this has been pointed to as probably more meaning to the situation.

The German advance south of the river.

French Are Retreating.—The French already have begun to retreat from the region below the river, but the German pressure north of the stream, where the safety of the Rheims salient is involved, seems on the basis of the latest official advice, not to have been as fully met.

French retreats are reported to have been very small. They have lost six guns, the report declares.

French columns have brought the German bridges over the river Marne under the fire of the French artillery.

General Von Einem's army which was engaged on the German left wing in the valley of the Marne, during the attacks between Sully and Massiges. All the attacks were repulsed with heavy losses.

Balls carried out last night by the British east of Villers-Bretonneux and in the neighborhood of Haudouin, in the front to the north, resulted in the taking of prisoners, the war office announced today.

In the Somme and Ancre sectors, north of the Scarpe, the enemy artillery was active last night. Similar activity was reported in the Somme and north of Bailleul.

### SHOEMAKERS WOULD STRIKE FOR INCREASE

BROCKTON, Mass., Wednesday, July 17.—Two hundred and seventy-five shoe cutters employed at the Bridgewater factory of the L. Q. White Shoe Company, which has a contract for making a million pairs of army shoes, last night voted to join striking cutters in many factories in this district. Union leaders claim that more than 2,000 cutters have left their work.

### STEEL WORKERS OUT IN NEWARK DISTRICT

NEWARK, N. J., Wednesday, July 17.—Between 2,000 and 3,000 skilled machinists, toolmakers and their apprentices, mostly employed in government work, walked out in various manufacturing plants in this district today, on strike for higher wages.

Sixty War Savings Certificates will buy a motor truck to push forty soldiers to the aid of their comrades.

### We finance farmers who are growing crops that will help win the war.

### ALL HOSPITALS CARING FOR YANKS GET U. S. NURSE

WASHINGTON, Wednesday, July 17.—To care for American wounded sent from France to hospitals in French military hospitals, the American Red Cross has assigned one of its nurses and an aid nursing corps member to each of the five American hospitals for American wounded in France. It was explained yesterday that before the war the nurses of the Red Cross were the only ones who had been helping in French hospitals. They were now being sent to France to help in the hospitals and consequently the men were being helped in the hospitals and making their recovery.

### Modify Embargo on Copper Ore

WASHINGTON, Wednesday, July 17.—Under new restrictions on the importation of copper ore, announced yesterday by the War Trade Board, houses will be permitted to import a limited amount of copper ore for shipment from Canada, Canada and Mexico.

### NEBRASKA WOMAN DEAD

Miss Mary E. Hartman, another nurse assigned to the American Red Cross hospital in France, died yesterday at the age of 35. She had been in France for several months. Her death was the result of a long illness. She was a native of Nebraska and had been in France since the beginning of the war. Her death was a great loss to the American Red Cross and to the men in the hospitals.

### ALLEGED BURGLARS ARE ARRESTED IN OPIUM RAID

Three Men Found With Property, Some of Which Has Been Identified by Owners.

The city police department admits that it is breathing a bit easier today, and it hopes that the public will do likewise. In the arrest of three men—alleged burglars—officers said there have been cleared up the opium houses in the lower Broadway district, with the possibility of a number of more being due for a satisfactory explanation.

The district, in police language, has been torn wide open during the past month. In a city-wide search for opium smokers, early this morning conducted by Sergeants T. J. Clark and George H. Comstock and Patrolman Ed Hagen, arrests were made at 21st Avenue and Madison Street and at 210 Fourth Ave. S. In the latter place three men were found using opium. William Jones, 33 years old, and Thomas Williams, 22 years old, both waiters, and Albert Langford, a jockey, 23 years old.

Plunder Valued at \$500.

The apartment is rented by Langford. There was found a suitcase containing a costly silk wearing apparel for women and a quantity of jewelry and three revolvers. The total value of the property found is about \$500.

Mrs. W. F. Hayman, 316 Spruce St., identified the clothing as belonging to her. She also identified a pair of gold watch chains and other jewelry. Miss J. M. Arnold, 1210 Madison St., has received all but eleven pairs of silk stockings out of thirteen pairs stolen. She also identified a pair of gold watch chains. She also lost \$65 in War Savings Stamps. The former's loss was formerly reported by Miss Arnold last her effects on July 4.

Miss O. M. Bryan, Breslin Apartments, 1210 Madison St., has identified a watch and a diamond ring. Only the watch was discovered among the effects found in the suitcase, which the police say belongs to Langford.

Several other pieces of jewelry have not been identified, according to the police.

Held for Investigation.

Among the contents of the case, besides the clothing, were a flash-light, a pass key and a rat-tail file, all conveniences appreciated by burglars. The charges against the men are held on a charge of being present where opium was being smoked, they are held for further investigation without the present right to bail.

Langford is held on an open charge, and the other two are held on a charge of being present where opium was being smoked, according to Lieutenant Jack Wiekman, who is conducting the investigation.

At all points, the police believe they have broken up a gang of burglars who have had First Hill and Lower Broadway district residents in a state of terror for several weeks.

### To Give Lecture on First Aid Methods

A lecture will be delivered by Dr. William S. Linscomb, lecturer in first aid, at 4 o'clock at Denny Hall, university campus, on first aid to the injured. The lecture will be given in the lecture hall of the university. The lecture will be given in the lecture hall of the university. The lecture will be given in the lecture hall of the university.

### Men Interested in Food Show Take Samples Home to Wives

"SOMES of men carefully wrapped up samples of bread and wheat, less muffins in separate scraps of paper and labeled them and went home with pockets bulging to show their wives how to cook in war-time," said Miss Grady, director of the home economics extension work at the University of Washington, in describing the success of the first food show in her volunteer demonstration of wartime food products and preparation.

Miss Grady began the work Saturday by explaining the uses of substitutes which the class in food conservation at the university had direct special work in cooperation of the United States Food Administration.

Women Are Enthusiastic.

"We are certainly pleased that the women of the city are so enthusiastic about the home economics extension work," declared Miss Grady. "A great many of the women who are interested in the work are standing on their own feet. They are doing their own shopping and preparing their own food. They are doing their own shopping and preparing their own food. They are doing their own shopping and preparing their own food."

### SIXTH AMERICAN FLYER COMES DOWN IN FLAMES

AMSTERDAM, Wednesday, July 17.—Particulars regarding the sixth American airplane to be shot down in the air over Cologne last week are given by The Associated Press. The news is that the airplane, a Curtiss, was shot down by a German fighter plane on Sunday evening. The pilot, a 19-year-old college student named Gerlach, while busy harvesting potatoes in the fields of his home in Hunsbruck, saw a flying machine at a height of approximately 2,000 feet.

When it came down he saw it was a French biplane armed with three machine guns and had two occupants. An American first lieutenant and another lieutenant, who was shot down by a German fighter plane on Sunday evening. The pilot, a 19-year-old college student named Gerlach, while busy harvesting potatoes in the fields of his home in Hunsbruck, saw a flying machine at a height of approximately 2,000 feet.

**"WATERHOUSE" a Man**

Frank Waterhouse dropped into our store on Monday morning at twenty minutes to nine; he wanted to buy a belt. We explained to him that we were not open for business until 9 o'clock, and in justice to our competitors could not make the sale.

Did he get peeved? Not a bit of it.

About a quarter past nine a young man came in from his office and secured the belt for him.

Mr. Waterhouse appreciated our keeping faith with our competitors and the State Council of Defense.
