“The Washington Park Arboretum is a living plant museum emphasizing trees and shrubs hardy in the maritime Pacific Northwest. Collections are selected and arranged to display their beauty and function in urban landscapes, to demonstrate their natural ecology and diversity, and to conserve important species and cultivated varieties for the future. The Arboretum serves the public, students at all levels, naturalists, gardeners, and nursery and landscape professionals with its collections, educational programs, interpretation, and recreational opportunities”

This statement was adopted January 4, 1996, by the Arboretum and Botanical Garden Committee, established by the 1934 State Legislature, representing the University of Washington, the City of Seattle, The Arboretum Foundation, the local community and a governor's representative.
