

Flower Hunt

You will need a ruler, a pen or pencil, a flower and an adult.

1. Measure your flower across. How many inches is it?

2. Are all flowers this size?

3. How many petals does your flower have?

4. What does your flower smell like?

5. What color is your flower?

6. Who do you think would drink the nectar or eat the pollen from this flower?

7. If you know the name of your flower, write it down. You may also make up a descriptive name for the flower.

Draw a picture of your flower on the back of this page.
