WRAPSTAT
September Update

WrapStat

WrapStat is Live!

WERT is excited to announce that WrapStat launched September 1st. We are working to get users into the system and creating new ways to train folks. Given the complexity of the system, we have developed a series of short videos, FAQs, and templates in addition to our User Manual to help users navigate the system.

WrapStat FAQ

We have created a FAQ pdf to answer some questions around accessing WrapStat, transitioning from WrapTrack and general questions about the system.

To access this pdf, click the link below.

WrapStat FAQ

WrapStat Feature: Evaluation Cycles

This month, we would like to highlight our Evaluation Cycle feature. The evaluation cycle is designed to help Wraparound initiatives pull a more representative sample when administering one of the WFAS tools. When creating an evaluation cycle, users will establish a timeframe for data collection, select which sites to administer the tool to, and establish the sampling criteria. Based on this information, WrapStat will randomly pull a sample from the youth roster. Programs will then work to administer the tool for all youth in the sample. This feature allows for a more rigorous sampling methodology and helps Wraparound initiatives avoid common errors - such as convenience sampling - when administering the fidelity tools.

Training Webinars

Starting this October, WERT will be offering introductory training webinars the 1st and 3rd Wednesday of each month, from 10am – 11am PT / 11am – 12pm MT / 12pm – 1pm CT / 1pm – 2pm ET. The first 30-minutes of the webinar will be an overview of the basic functions and features of the system, with a specific emphasis on common tasks, such as adding youth into the system. The last 30-minutes will be open "office hours" where users can ask about specific functions or tabs they would like to learn more about.

To register for one of these events, please follow this link: **Click here to register**

CONFIGURATION VIDEO

Watch this short **6-minute video** to better understand what we mean when we talk about your "WrapStat Configuration."

CHECK OUT 2020 WFAS CONTRACTS

Our new WFAS license agreements are now available for review. These agreements incorporate our new pricing structure and provide access to WrapStat, **check them out here**.

REACH OUT TO US

If you have any questions email us at **wrapeval@uw.edu**

Wraparound during COVID-19

WERT continues to provide technical assistance and training for our tools during this time. For more resources about implementing Wraparound during COVID-19, please go to the website of our parent organization, the **National Wraparound Initiative (NWI).**
