UP FRONT

163 In This Issue

165 Concepts and Terms in Genetic Research—A Primer

172 Genetic Strategies to Detect Genes Involved in Alcoholism and Alcohol-Related Traits
DANIELLE M. DICK AND TATIANA FOROUD

181 Genomic Approaches to the Genetics of Alcoholism
MARISSA A. EHRINGER AND JAMES M. SIKELA

193 Effects of the Interaction Between Genotype and Environment: Research into the Genetic Epidemiology of Alcohol Dependence
ANDREW C. HEATH AND ELLIOT C. NELSON

202 Animal Models for the Genetic Study of Human Alcohol Phenotypes
TAMARA PHILLIPS

208 Defining Alcohol-Related Phenotypes in Humans: The Collaborative Study on the Genetics of Alcoholism
LAURA JEAN BIERUT, NANCY L. SACCONI, JOHN P. RICE, ALISON GOATE, TATIANA FOROUD, HOWARD EDENBERG, LAURA ALMASY, P. MICHAEL CONNEALY, RAYMOND CROWE, VICTOR HESSELBROCK, T. K. LI, JOHN NURMBERGER, JR., BERNICE PORJESZ, MARC A. SCHUCKIT, JAY TISCHFIELD, HENRI BEGLEITER, AND THEODORE REICH

214 The Collaborative Study on the Genetics of Alcoholism: An Update
HOWARD J. EDENBERG

219 Proteomics in Alcohol Research
HELEN ANNI AND YEDY ISRAEL

RESEARCH UPDATE

233 Is There a Genetic Relationship Between Alcoholism and Depression?
JOHN I. NURNBERGER, JR., TATIANA FOROUD, LEAH FLURY, ERIC T. MEYER, AND RYAN WIEGAND
