CONTENTS

Genetics and Molecular Biology
Forward, Relaxed, and Reverse Selection for Reduced and Enhanced Sensitivity to Ethanol's Locomotor Stimulant Effects in Mice
Tamara J. Phillips, Elaine H. Shen, Carrie S. McKinnon, Sue Burkhart-Kasch, Christina N. Lessov, and Abraham A. Palmer .......................................................... 593

Linkage for Platelet Monoamine Oxidase (MAO) Activity: Results from a Replication Sample
Nancy L. Saccone, John P. Rice, Nan Rochberg, Jeff T. Williams, Alison Goate, Theodore Reich, Howard J. Edenberg, Tatiana Foroud, John I. Nurnberger, Jr., Laura J. Bierut, Raymond Crowe, and Ting-Kai Li .......................................................... 603

Mapping of Quantitative Trait Loci Underlying Ethanol Metabolism in BXD Recombinant Inbred Mouse Strains
Judith E. Grisel, Pamela Metten, Charlotte D. Wenger, Catherine M. Merrill, and John C. Crabbe .......................................................... 610

Pharmacology and Cell Metabolism
Alcohol Consumption Promotes Body Weight Loss in Melanoma-Bearing Mice
Nomell P. Núñez, Patrick A. Carter, and Gary G. Meadows .......................................................... 617

Neurobiological, Behavioral, and Environmental Relations to Drinking
Videotaped Cue for Urge to Drink Alcohol

Microanalysis of Ethanol Self-Administration: Estrous Cycle Phase-Related Changes in Consumption Patterns
Matthew M. Ford, J. C. Eldridge, and Herman H. Samson .......................................................... 635

Early Responsiveness to Stimuli Paired With Different Stages Within the State of Alcohol Intoxication
Ricardo M. Pautassi, Juan Carlos Godoy, Norman E. Spear, and Juan Carlos Molina .......................................................... 644

Diagnosis and Treatment
Acamprosate Has No Effect on NMDA-Induced Toxicity But Reduces Toxicity Induced by Spermidine or by Changing the Medium in Organotypic Hippocampal Slice Cultures From Rat
Svetlana Mayer, Barton Harris, D. Alex Gibson, John Blanchard, Mark A. Prendergast, Robert C. Holley, and John Littleton .......................................................... 655

continued on page ii
CONTENTS (continued from page i)

Alcohol Effects on the Fetus, Brain, Liver and Other Organ Systems
Impairment of Neuronal Nitric Oxide Synthase-Dependent Dilation of Cerebral Arterioles During Chronic Alcohol Consumption
   Hong Sun, Kaushik P. Patel, and William G. Mayhan ........................................ 663
Effects of Ethanol and Basic Fibroblast Growth Factor on the Transforming Growth Factor β1 Regulated Proliferation of Cortical Astrocytes and C6 Astrocytoma Cells
   Michael W. Miller and Jia Luo ........................................................................ 671
Beer Congener Stimulates Gastrointestinal Motility Via the Muscarinic Acetylcholine Receptors
   Wataru Fujii, Hisako Hori, Yoshiaki Yokoo, Yoshihide Suwa, Haruo Nukaya, and Kohtaro Taniyama ........... 677
Hepatocyte Growth Factor, Epidermal Growth Factor, and Placenta Growth Factor Concentrations in Peripheral Blood of Pregnant Women With Alcohol Abuse
   Piia Vuorela, Taisto Sarkola, Henrik Alfhlan, and Erja Holmestmäki ................................ 682
Effect of Ethanol Self-Administration on μ- and δ-Opioid Receptor-Mediated G-Protein Activity
Sex Differences in Ethanol-Induced Hypnosis and Hypothermia in Young Long-Evans Rats
   Barbara Webb, Patricia W. Burnett, and Don W. Walker ........................................ 695
Speed and Efficiency but Not Accuracy or Timing Deficits of Limb Movements in Alcoholic Men and Women
   Edith V. Sullivan, John E. Desmond, Kelvin O. Lim, and Adolf Pfefferbaum ...................... 705

Summary of Proceedings of a Symposium at the 2001 RSA Meeting
The Corticotropin-Releasing Factor/Urocortin System and Alcohol

Proceedings of Symposia at the 2001 RSA Meeting
College Binge Drinking: What Is It? Who Does It?
   James E. Lange, John D. Clapp, Rob Turrisi, Racheal Reavy, James Jaccard, Mark B. Johnson, Robert B. Voas, and Mary Larimer ........................................... 723
Pathogenesis of Alcoholic Liver Disease—Recent Advances
   Amin A. Nanji, Grace L. Su, Michael Laposata, and Samuel W. French ........................................... 731

Summary of a Plenary Lecture at the 2001 RSA Meeting
Expectancy and Risk for Alcoholism: The Unfortunate Exploitation of a Fundamental Characteristic of Neurobehavioral Adaptation
   Mark S. Goldman .................................................................................. 737

Erratum ................................................................................................. 704
