CONTENTS

Genetics and Molecular Biology
The Genetics of Alcoholism in Polynesians: Alcohol and Aldehyde Dehydrogenase Genotypes in Young Men

Pharmacology and Cell Metabolism
Alcohol and Benzodiazepines in Fatal Poisonings
Anna Koski, Ilkka Ojanperä, and Erkki Vuori ................................................................. 956

Neurobiological, Behavioral and Environmental Relations to Drinking
Chronic-Intermittent Ethanol Exposure During Adolescence Prevents Normal Developmental Changes in Sensitivity to Ethanol-Induced Motor Impairments
Aaron M. White, Jon G. Bae, Melanie C. Tresdale, Sukaina Ahmad, Wilkie A. Wilson, and H. Scott Swartzwelder .... 960
The Effect of Tryptophan Depletion on Alcohol Self-Administration in Non-Treatment-Seeking Alcoholic Individuals
Ismene L. Petriaki, Alessandra Buonopane, Stephanie O’Malley, Omer Cermik, Louis Trevisan, Nasuha N. Boutros, Diana Limoncelli, and John H. Krystal ........................................ 969
Chronic Continuous Nicotine Exposure During Periadolescence Does Not Increase Ethanol Intake During Adulthood in Rats
Andrew M. Smith, Ryan B. Kelly, and Wei-Jung A. Chen .................................................. 976

Diagnosis and Treatment
The Five-Year Predictive Validity of Each of the Seven DSM-IV Items for Alcohol Dependence Among Alcoholics
Marc A. Schuckit, George P. Danko, Tom L. Smith, and Kelly R. Buckman ................................................................. 980

Epidemiology and Prevention
Relationship of Light to Moderate Alcohol Consumption and Risk of Hypertension in Japanese Male Office Workers
Noriyuki Nakanishi, Kae Makino, Kazue Nishina, Kenji Suzuki, and Kozo Tatara .................................................. 988

Alcohol Effects on the Fetus, Brain, Liver, and Other Organ Systems
Alterations in Insulin-Like Growth Factor-I Signaling in Cardiomyocytes From Chronic Alcohol-Exposed Rats
Anna Pecherskaya, Emanuel Rubin, and Michele Solem ................................................................. 995

continued on page ii
Melatonin (an Antioxidant) Does Not Ameliorate Alcohol-Induced Purkinje Cell Loss in the Developing Cerebellum
Russell B. Edwards, Ehrine J. P. Manzana, and Wei-Jung A. Chen .................................................. 1003
Alcohol Intake and Future Incidence of Hypertension in a General Japanese Population: The Hisayama Study
Susumu Ohnori, Yutaka Kiyohara, Isao Kato, Michiaki Kubo, Yumihiro Tanizaki, Hiromitsu Iwamoto,
Keizo Nakayama, Isao Abe, and Masatoshi Fujishima ................................................................. 1010
Stress Response Caused by Chronic Alcohol Intake in Aged Rat Brain
Keiko Umino, Hiromi Asakura, Yuka Shibuya, Masako Kawai, Hideto Fukatsu, Shojo Okada, and Naoto Oka ........ 1017
Increased Ethanol Excitation of Dopaminergic Neurons of the Ventral Tegmental Area After Chronic Ethanol Treatment
Mark S. Brodie ......................................................................................................................... 1024

Review Article
Alcoholism and AIDS: Magnetic Resonance Imaging Approaches for Detecting Interactive Neuropathology
Adolf Pfaffenbaum, Margaret Rosenbloom, and Edith V. Sullivan ..................................................... 1031

WHO-IBRA: Study on State and Trait Markers of Alcohol Dependence
WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence: Analysis of Demographic, Behavioral, Physiologic, and Drinking Variables That Contribute to Dependence and Seeking Treatment
Jason Glanz, Bridget Grant, Maristela Monteiro, and Boris Tabakoff on behalf of the Investigators ........ 1047
Biological Markers of Alcohol Consumption in Nondrinkers, Drinkers, and Alcohol-Dependent Brazilian Patients
N. B. Figlie, A. A. Benedito-Silva, M. G. Monteiro, and M. L. O. Souza-Formigoni, on behalf of the WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence Investigators ................................................................. 1062
Laboratory Tests for Acute Alcohol Consumption: Results of the WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence
Anders Helander and C. J. Peter Eriksson, on behalf of the WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence Investigators ................................................................. 1070
Platelet Adenylyl Cyclase Activity as a State or Trait Marker in Alcohol Dependence: Results of the WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence
Paula L. Hoffman, Jason Glanz, and Boris Tabakoff on behalf of the WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence Investigators ................................................................. 1078
Evidence in an International Sample of Alcohol-Dependent Subjects of Subgroups With Specific Symptom Patterns of Antisocial Personality Disorder
Ilija Kovac, Chantal Mérété, Lucie Legault, Maurice Dongier, and Roberta M. Palmour on behalf of the WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence Investigators ................................................................. 1088
The Effect of Total Body Water on the Relationship Between Alcohol Consumption and Carbohydrate-Deficient Transferrin
L. D. Martínez, A. E. Barón, A. Helander, K. M. Conigrave, and B. Tabakoff, on behalf of the WHO/IBRA Collaborative Study on State and Trait Markers of Alcohol Use and Dependence Investigators ................................................................. 1097
Relationships Between Effects of Smoking, Gender, and Alcohol Dependence on Platelet Monoamine Oxidase-B: Activity, Affinity Labeling, and Protein Measurements
Lawrence D. Snell, Jason Glanz, and Boris Tabakoff on behalf of the WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence Investigators ................................................................. 1105
The Ethanol Conjugate Ethyl Glucuronide Is a Useful Marker of Recent Alcohol Consumption
Friedrich Martin Wurst and Joerg Metzger on behalf of the WHO/IBRA Study on State and Trait Markers of Alcohol Use and Dependence Investigators ................................................................. 1114
