CONTENTS

Genetics and Molecular Biology
Alcohol-Induced Up-Regulation of Fibrinolytic Activity and Plasminogen Activators in Human Monocytes
Edlue M. Tabengwa, Crystal G. Wheeler, Dwana A. Yancey, Herman E. Grenet, and Francois M. Booyse  ... 1121

Pharmacology and Cell Metabolism
Myocardial Effects of Ethanol Consumption in the Rat With Streptozotocin-Induced Diabetes
Thomas D. Giles, Michael B. Given, Stan S. Greenberg, Xinfang Zhao, Edmund Kenneth Kerut, Elizabeth McElwain, and Gayle Allen  ... 1128
Alcohol Consumption Is Associated With Enrichment of High-Density Lipoprotein Particles in Polyunsaturated Lipids and Increased Cholesterol Esterification Rate
Bertrand Perret, Jean-Bernard Ruidavets, Claude Vieu, Béatrice Jaspard, Jean-Pierre Cambou, François Terce, and Xavier Collet  ... 1134

Neurobiological, Behavioral, and Environmental Relations to Drinking
The Relationship Between Hippocampal Acetylcholine Release and Cholinergic Convulsant Sensitivity in Withdrawal Seizure–Prone and Withdrawal Seizure–Resistant Selected Mouse Lines
Gregory P. Mark and Deborah A. Finn  ... 1141
Diurnal Effects of Acute and Chronic Administration of Ethanol on Sleep in Rats
Yakeshi Kubota, Alok De, Richard A. Brown, Steven M. Simasko, and James M. Krueger  ... 1153
Heart Rate and Motor-Activating Effects of Orally Self-Administered Ethanol in Alcohol-Prefering (P) Rats
Richard L. Bell, Zachary A. Rodd-Henricks, Amy A. Webster, Lawrence Lumeng, Ting-Kai Li, William J. McBride, and James M. Murphy  ... 1162
Differences in the Responses of the Pituitary β-Endorphin and Cardiovascular System to Ethanol and Stress as a Function of Family History
Xing Dai, Joseph Thavundayil, and Christina Gianoulakis  ... 1171
Nitrendipine Blocks the Nociceptive Effects of Chronically Administered Ethanol
Michael B. Gatch  ... 1181
An Evaluation of Relations Among Antisocial Behavior, Psychopathic Traits, and Alcohol Problems in Incarcerated Men
Maureen Lyons Reardon, Alan R. Lang, and Christopher J. Patrick  ... 1188

continued on page ii
CONTENTS (continued from page i)

Cortisol Dysregulation and Cognitive Impairment in Abstinent Male Alcoholics
Austin L. Errico, Andrea C. King, William R. Lovallo, and Oscar A. Parsons ............................................ 1198

Disruption of Maternal Behavior by Alcohol Intoxication in the Lactating Rat: A Behavioral and Metabolic Analysis
Marta Yanina Pepino, Paula Abate, Norman E. Spear, and Juan Carlos Molina ............................................. 1205

Diagnosis and Treatment
Carbohydrate-Deficient Transferrin and γ-Glutamyltransferase for the Detection and Monitoring of Alcohol Use: Results From a Multisite Study
Raymond F. Cott, Charles Lieber, and Boris Tabakoff, for the CDTECT Study Group ........................................ 1215
Co-occurrence of Obsessive-Compulsive Personality Traits in Young and Middle-Aged Japanese Alcohol-Dependent Men
Kenji Suzuki, Taro Muramatsu, Aya Takeda, and Katsuyuki Shirakura .......................................................... 1223
Coping Among Individuals Seeking Private Chemical Dependence Treatment: Gender Differences and Impact on Length of Stay in Treatment
Carolyn S. Kohn, Jennifer R. Mertens, and Constance M. Weisner ................................................................. 1228
Serum Sialic Acid as a Marker of Alcohol Consumption: Effect of Liver Disease and Heavy Drinking
Jarkko Rompanen, Kari Punnonen, Petra Anttila, Tiula Jakobsson, Joan Blake, and Onni Niemelä ..................... 1234

Alcohol Effects on the Fetus, Brain, Liver, and Other Organ Systems
Executive Dysfunction and Clinical Outcome in Chronic Alcoholics
Yasushi Mori, Masaru Mimura, Motoichiro Kato, Aihide Yoshino, Tsunekatsu Hara, Haruo Kashima, Akio Endo, and Akihisa Watanabe .......................................................... 1239
Glutathione Replacement Preserves the Functional Surfactant Phospholipid Pool Size and Decreases Sepsis-Mediated Lung Dysfunction in Ethanol-Fed Rats
Alvaro Velasquez, Rabih I. Bechara, James F. Lewis, Jaret Malloy, Lynda McCaig, Lou Ann S. Brown, and David M. Guidot ................................................................. 1245
4-Hydroxynonenal Detoxification by Mitochondrial Glutathione S-Transferase Is Compromised by Short-Term Ethanol Consumption in Rats
Juanjuan Chen, Steven Schenker, and George I. Henderson ................................................................. 1252

Alcohol Effects on the Fetus, Brain, Liver, and Other Organ Systems
Executive Dysfunction and Clinical Outcome in Chronic Alcoholics
Yasushi Mori, Masaru Mimura, Motoichiro Kato, Aihide Yoshino, Tsunekatsu Hara, Haruo Kashima, Akio Endo, and Akihisa Watanabe .......................................................... 1239
Glutathione Replacement Preserves the Functional Surfactant Phospholipid Pool Size and Decreases Sepsis-Mediated Lung Dysfunction in Ethanol-Fed Rats
Alvaro Velasquez, Rabih I. Bechara, James F. Lewis, Jaret Malloy, Lynda McCaig, Lou Ann S. Brown, and David M. Guidot ................................................................. 1245
4-Hydroxynonenal Detoxification by Mitochondrial Glutathione S-Transferase Is Compromised by Short-Term Ethanol Consumption in Rats
Juanjuan Chen, Steven Schenker, and George I. Henderson ................................................................. 1252

Accented Decrease in Social Interaction in Rats Subjected to Repeated Ethanol Withdrawals
David H. Overstreet, Darin J. Knapp, and George R. Breese ................................................................. 1259
The effects of chronic alcohol consumption and exercise on the skeleton of adult male rats
Adam H. Reed, Heidi L. McCarry, Glenda L. Evans, Russell T. Turner, and Kim C. Westerling ......................... 1269
Brain Catalase Inhibition Blocks Ethanol-Related Decrease of Blood Luteinizing Hormone Levels in Mice
Carles Sanchis-Segura and Carlos M. G. Aragon ................................................................. 1275
Effects of Ethanol and Transforming Growth Factor β (TGFβ) on Neuronal Proliferation and nCAM Expression
Michael W. Miller and Jia Luo ................................................................. 1281
Ethanol Induces Morphological and Dynamic Changes on In Vivo and In Vitro Neural Crest Cells
Roberto A. Rovasio and Natalia L. Battista ................................................................. 1286
Self-Reported Subjective Perception of Intoxication Reflects Family History of Alcoholism When Breath Alcohol Levels Are Constant
S. L. Morzorati, V. A. Ramchandani, L. Flury, T.-K. Li, and S. O'Connor ................................................................. 1299
Administration of Low Doses of MK-801 During Ethanol Withdrawal in the Developing Rat Pup Attenuates Alcohol's Teratogenic Effects
J. D. Thomas, S. L. Fleming, and E. P. Riley ................................................................. 1307
