CONTENTS

Genetics and Molecular Biology
Dopamine D2 Receptor Binding, Drd2 Expression and the Number of Dopamine Neurons in the BXD Recombinant Inbred Series: Genetic Relationships to Alcohol and Other Drug Associated Phenotypes

Robert Hitzemann, Barbara Hitzemann, Seth Rivera, John Gatley, Peter Thanos, Lu Lu Siming Shou, and Robert W. Williams .......................... 1

High- and Low-Alcohol-Preferring Mice Show Differences in Conditioned Taste Aversion to Alcohol

Julia A. Chester, Lawrence Lumeng, Ting-Kai Li, and Nicholas J. Grahame .................................. 12

NPY leu7pro and Alcohol Dependence in Finnish and Swedish Populations

Guanshan Zhu, Lotta Pollak, Salim Mottagui-Tabar, Claes Wahlestedt, Julie Taubman, Matti Virkkunen, David Goldman, and Markus Heilig ................................................. 19

Neurobiological, Behavioral, and Environmental Relations to Drinking
Are Relations Between Parental History of Alcohol Problems and Changes in Drinking Moderated by Positive Expectancies?

Wendy A. VanVoorst and Stuart W. Quirk ......................................................... 25

Maternal Separation Alters Acquisition of Ethanol Intake in Male Ethanol-Preferring AA Rats

Erika Roman, Petri Hyytiä, and Ingrid Nylander ........................................................................ 31

Acutely Administered Ethanol Participates in Testosterone Synthesis and Increases Testosterone in Rat Brain

Ahmed A. Alomary, Monique Vallée, Laura E. O’Dell, George F. Koob, Robert H. Purdy, and Robert L. Fitzgerald .................................................. 38

Behavioral Undercontrol and Subjective Stimulant and Sedative Effects of Alcohol Intoxication: Independent Predictors of Drinking Habits?

Joel Erblich and Mitchell Earleywine .................................................................................. 44

Diagnosis and Treatment
Financial Costs of Alcoholism Treatment Programs: A Longitudinal and Comparative Evaluation Among Four Specialized Centers

Effect of Type of Alcoholic Beverages on Carbohydrate-Deficient Transferrin, Sialic Acid, and Liver Enzymes

P. Sillanaukee, M. S. van der Gaag, A. Sierksma, H. F. J. Hendriks, N. Strid, M. Pönniö, and S. T. Nikkari .......................................................... 57

continued on page ii
General Practitioners and Alcohol Use Disorders: Quantity Without Quality
Laurent Malet, Pierre-Michel Llorca, Didier Boussiron, Raymund Schwan, Françoise Facy, and Michel Reynaud ................................................................. 61

Validity of Brief Alcohol Screening Tests Among Adolescents: A Comparison of the AUDIT, POSIT, CAGE, and CRAFFT
John R. Knight, Lon Sherritt, Sion Kim Harris, Elizabeth C. Gates, and Grace Chang ................................................................. 67

Strategies for Reduction and Cessation of Alcohol Use: Adolescent Preferences
Jane Metrik, Kevin C. Frissell, Denis M. McCarthy, Elizabeth J. D’Amico, and Sandra A. Brown ................................................................. 74

Epidemiology and Prevention
Rates and Correlates of Alcohol Use Among Pregnant Women in Obstetrics Clinics
Heather A. Flynn, Sheila M. Marcus, Kristen L. Barry, and Frederic C. Blow ................................................................. 81

Average Volume of Alcohol Consumption and All-Cause Mortality in African Americans: The NHEFS Cohort
Christopher T. Sembros, Jürgen Rehm, Tiejian Wu, Carlos J. Crespo, and Maurizio Trevisan ................................................................. 88

Age and Birth Cohort Effects on Rates of Alcohol Dependence

Alcohol Effects on the Fetus, Brain, Liver and Other Organ Systems
Inhibition of Alcohol-Associated Colonic Hyperregeneration by α-Tocopherol in the Rat
P. Vincon, J. Wunderer, U. A. Simanowski, M. Koll, V. R. Preedy, T. J. Peters, J. Werner, R. Waldherr, and H. K. Seitz ................................................................. 100

Zinc Supplementation at the Time of Ethanol Exposure Ameliorates Teratogenicity in Mice
Luke C. Carey, Peter Coyle, Jeffrey C. Philcox, and Allan M. Rofe ................................................................. 107

Disuse Exaggerates the Detrimental Effects of Alcohol on Cortical Bone
Theresa E. Hefferan, Angela M. Kennedy, Glenda L. Evans, and Russell T. Turner ................................................................. 111

Proceedings of an International Workshop on Fetal Alcohol Syndrome
Prenatal Alcohol Exposure: Advancing Knowledge Through International Collaborations
Edward P. Riley, Consuelo Guerri, Faye Calhoun, Michael E. Charness, Tatiana M. Foroud, Ting-Kai Li, Sarah N. Mattson, Philip A. May, and Kenneth R. Warren ................................................................. 118

Letter to the Editor
Tianephrine May Be a Useful Adjunct in the Treatment of Alcohol Dependence of Adolescents
Helmut Niederhofer, Wolfgang Staffen, and Alois Mair ................................................................. 136

List of 2002 Reviewers ................................................................. 137
