CONTENTS

Genetics and Molecular Biology
Microarray Analysis of Ethanol-Treated Cortical Neurons Reveals Disruption of Genes Related to the Ubiquitin-Proteasome Pathway and Protein Synthesis
Ramana Cistula, Ju Wang, Sheila Kupadakpam, Yoon Hwang, Mahanick Ticku, and Ming D. Li .................................................. 1779

A Polymorphism of the μ-Opioid Receptor Gene (OPRM1) and Sensitivity to the Effects of Alcohol in Humans
Lara A. Ray and Kent E. Hackinson ............................................. 1789

Quantitative Trait Loci Mapping for Ethanol Sensitivity and Neurotransmitter Receptor Density in an F2 Interstrain Derived From Inbred High and Low Alcohol Sensitivity Selectively Bred Rat Lines
Richard A. Radcliffe, V. Gene Erwin, Laura Drniski, Sarah Hoffmann, Joel Edwards, Xin-Sheng Dong, Feiqua Blueaux, Tina Yau, Kristy Lundquist, William Asperi, and Richard A. Deitch ............................................................. 1796

Neurobiological, Behavioral, and Environmental Relations to Drinking
Comorbidity of Select Anxiety and Affective Disorders With Alcohol Dependence in Southwest California Indians
De A. Cihade, Tamara L. Wall, and Cindy L. Eldred .................................................. 1805

Motor Impairing Effects of Ethanol and Diazepam in Rats Selectively Bred for High and Low Ethanol Consumption in a Limited-Access Paradigm
Megan J. shrimp, Manuvalu Sundaram, Jeff J. Belosevic, Maria Tampourakos, Anh D. Le, and Denise M. Tomkins .............. 1814

Galantin Micsinjection in the Third Ventricle Increases Voluntary Ethanol Intake
Michael J. Lewis, Deanne F. Johnson, Daniel Waldman, Sarah F. Lebowitz, and Bartley G. Hoebel ............... 1822

Increased Ethanol Drinking After Repted Ethanol Exposure and Withdrawal Experience in C57BL/6 Mice
Howard C. Becker and Marcello F. Lopez ........................................ 1829

Ethanol's Effects on Gait Dynamics in Mice Investigated by Ventral Plane Videography
Afis Sale, Irso Arnaud, Gerit P. Meyer, John C. Cnude, and Thomas G. Hampton .................................................. 1839

Cigarette Smoking Exacerbates Chronic Alcohol-Induced Brain Damage: A Preliminary Metabolite Imaging Study
Timothy C. Durazo, Stefan Gazdzicki, Peter Barts, and Dietrich T. Meyerhoff .................................................. 1849

Mammath Negativity: No Difference Between Treatment-Naive Alcoholics and Controls
George Fein, Shawnon McGillivray, and Peter Finn .................................................. 1861

Effects of Long-Term Episodic Access to Ethanol on the Expression of an Alcohol Depetration Effect in Low Alcohol-Consuming Rats
Richard L. Bell, Zachary A. Addi, Caron L. Bauleou, Cathleen C. Hia, Lawrence Lumeng, James M. Murphy, and continued on page ii
