CONTENTS

Genetics and Molecular Biology
A Functional Polymorphism in the Promoter Region of the Tryptophan Hydroxylase Gene B Associated With Alcohol Dependence in One Aboriginal Group in Taiwan
H. Sandy Sun, Cathy Shen-Jang Fann, Hsin-Yuan Lane, Yue-Teng Chang, Ching-Ai Chang, Yu-Li Liu, and Andrew Tai-Ann Cheng ................................................. 1

Neurobiological, Behavioral, and Environmental Relations to Drinking
An Expanded Evaluation of the Relationship of Four Alleles to the Level of Response to Alcohol and the Alcoholism Risk
Xiazhang Hu, Guor Cao, Jeffrey Chou, Tom L. Smith, David Goldman, and Marc A. Schuckit .................................................. 8

Glycine Receptors Regulate Dopamine Release in the Rat Nucleus Accumbens
Anna Melander and Bo Söderpalm ........................................... 17

Acumbal Striocyte-Sensitive Glycine Receptors: An Access Point for Ethanol to the Brain Reward System
Anna Melander and Bo Söderpalm ........................................... 27

Involvement of Acumbal Glycine Receptors in the Regulation of Voluntary Ethanol Intake in the Rat
Anna Melander, Elin Lof, Renate Storvoll, Mia Ericson, and Bo Söderpalm ............................................................. 38

Systematic Regional Study of Deglutine, Norsalolol, and (R)-Salololol Levels in Human Brain Areas of Alcoholics
Frank Mackoff, Dirk W. Lackerschmit, Peter Schmidt, Reinhard Dethmers, and Burkhard Mada 46

Alcohol Use Disorders Identification Test (AUDIT): Establishment of Cut-off Scores in a Hospitalized Chinese Population
Mei-Chu Tsai, Yuan-Fung Tsai, Ching-Yen Chen, and Chao-Yin Liu ................................................................. 53

Mecamylamine and Ethanol Preference in Healthy Volunteers
Elizabeth M. Young, Stephen Maher, Henry Chi, and Harriet de Wit .............................................................. 58

Electrophysiological Effects of Allopregnanolone in Rats With a History of Ethanol Exposure
Craig J. Slawetz, Robert H. Purdy, and Candy L. Elders ............................................................. 66

Effects of Topiramate on Ethanol and Saccharin Consumption and Preferences in C57BL/6J Mice
Kara I. Gabriel and Christopher L. Cunningham .......................................................... 75

Diagnosis and Treatment
Performance of Aidsalotransferrin in Detecting Alcohol Abuse
Rythman Schwan, Marie-Nadia Lotouros, Eliane Alhuisson, Franz J. Legros, Vincent Neyens, Laurent Malo, Isabelle Chretien-Beaulieu, and Pierre-Michel Livat ......................................................... 81

ALCOHOLISM: CLINICAL AND EXPERIMENTAL RESEARCH (ISSN 0145-6041) is the official journal of the Research Society on Alcoholism and the International Society for Biomedical Research on Alcoholism and is published 12 times per year beginning in January by Lippincott Williams & Wilkins, 1632 Hudson Green Parkway, Hagerstown, MD 21740-2116. Subscription rates: USA and ISRAEL: Individuals, $215.00; Institutions, $422.00; Canada and Mexico, $425.00. Single copy rates: $77.00. Payments must be in US funds drawn on a bank in the United States. Payment terms are net 30. Back issues available from current volume for $21.00 each. Available in microform from: Bell & Sons, Inc., 250 Williston Road, P.O. Box 600, Wilton, CT 06897. Additional Information: for authors and subscribers. See inside back cover. Current Indexed In: Index Medicus, Science Citation Index, Chemical Abstracts, Current Contents, Excerpta Medica, Index Medicus, Current Contents, Current Contents Alerting Service, CNAS, and Biosis Information Service. Copyright © 2004 by the Research Society on Alcoholism.
Epidemiology and Prevention
Alcohol and Atherogenic Vascular Disease Risk Factors in French Men: Relationships Are Linear, J-Shaped, and U-Shaped
Philippe Essailier, Marie-Christine Boutron-Ruault, Sandrine Bertrais, Nathalie Arnaud, Jean-Jacques Dauzelin, Jean-Noël Bacot, and Serge Hercberg

84

Trends and Determinants of Alcohol Consumption in Portugal: Results From the National Health Surveys 1995 to 1996 and 1998 to 1999
Pedro Marques-Vidal and Carlos Matias Dias

89

Drinking, Alcohol Problems and the Five-Year Revisit: Incidence of Male to Female and Female to Male Partner Violence
Raul Castano, Christine McGrath, Susan Retailse-Mikel, and Craig A. Field

98

Disparities in Patterns of Alcohol Use Among Reservation-based and Geographically Dispersed American Indian Populations
Joan M. O’Connell, Douglas K. Novoa, Janette Beal, Paul Spricer, and the AI-SUPERFPF Team

107

Alcohol Effects on the Fetus, Brain, Liver, and Other Organ Systems
Vitamin E Does Not Protect Against Neonatal Ethanol-induced Cerebellar Damage or Deficits in Eyeblink Classical Conditioning in Rats
Twan D. Tran, Holly D. Jackson, Kristin H. Horn, and Charles R. Goodlett

117

Alcohol Consumption in Pregnant, Black Women is Associated With Decreased Plasma and Erythrocyte Docosahexaenoic Acid

130

Fetal Alcohol Exposure Reduces Serotonin Innervation and Compromises Development of the Forebrain Along the Serotonergic Pathway
Feng C. Zhou, Yousef Say, and Teresa A. Powerack

141

Proceedings of Symposium at International Conference on Applications of Neuroimaging to Alcoholism (ICANA)
Magnetic Resonance Spectroscopic Studies of Alcolholism: From Heavy Drinking to Alcohol Dependence and Back Again
Geriene F. Mason, Martin Bendazza, Dieter J. Meyerhoff, Holy P. Hetherington, Brian Schenningburg, Brian D. Ross, Michael J. Taylor, and John H. Krysal

150

Applications of Morphometric and Diffusion Tensor Magnetic Resonance Imaging to the Study of Brain Abnormalities in the Alcolholism Spectrum
Ela Dautrip, Arthur W. Toga, Derek K. Jones, Hansu J. Aronov, Daniel W. Horner, Terry L. Jernigan, John H. Krysal, and Daniel H. Manahan
