Drug and Alcohol Dependence 2002;68(Suppl 1)

S1–S2  Measurement and design issues in tobacco and drug use research
       L.M. Collins, B.P. Flaherty, S.M. Colby

S3–S5  Introduction to the supplemental issue on measurement and design issues in tobacco and drug use research
       R.R. Clayton

S7–S20 Assessing reliability of categorical substance use measures with latent class analysis
       B.P. Flaherty

S21–S39 Assessing tobacco beliefs among youth using item response theory models
       A.T. Panter, B.B. Reeve

S41–S56 Using qualitative research to inform survey development on nicotine dependence among adolescents
       M. Nichter, M. Nichter, P.J. Thompson, S. Shiffman, A.-B. Moscicki

S57–S67 Adaptive sampling in research on risk-related behaviors
       S.K. Thompson, L.M. Collins

S69–S83 Mediation designs for tobacco prevention research
       D.P. MacKinnon, M.P. Taborga, A.A. Morgan-Lopez

S85–S96 The effect of the timing and spacing of observations in longitudinal studies of tobacco and other drug use: temporal design considerations
       L.M. Collins, J.W. Graham
