Syllabus

- Electronic Version:
    - Kept current
- Print Version
  - By request
Textbooks

Handouts / Articles

- Many of these will be available from the course web site

Lecture Notes

- Posted to the web as a PDF document
  - For taking notes (3 slides/page)
- [http://courses.washington.edu/envir202/Schedule.htm](http://courses.washington.edu/envir202/Schedule.htm)

Sections

- Quiz Sections
  - Discussions
  - Activities
  - Exercises
- Case Studies
  - AA. Water
  - AB. Shelter
  - AC. Solid Wastes
  - AD. Food Safety
  - AE. Rebuilding New Orleans (Lower 9th)
Two major themes:

- Health is best viewed as a state influenced by many environments
  - Economic
  - Social, and
  - Cultural -- as well as
  - Physical
- The health of populations can be understood in the context of geographical patterns of production and consumption
