Washington State Health Care for Workers with Disabilities (HWD)

[http://hrsa.dshs.wa.gov/Eligibility/hwd.htm](http://hrsa.dshs.wa.gov/Eligibility/hwd.htm)

It used to be that people with disabilities could not keep their Medicaid coverage if they went back to work. Under HWD, Washingtonians with disabilities who are working may purchase healthcare coverage for a monthly amount based on a sliding income scale. **HWD** is made available in Washington State under the *Ticket to Work and Work Incentives Improvement Act (TWWIIA) of 1999*. The HWD program recognizes the employment potential of people with disabilities, and represents Washington State's response to the "Ticket to Work" legislation passed by Congress in 1999. Under **HWD**, people with disabilities can earn more money and purchase healthcare coverage for an amount based on a sliding income scale.
HWD benefits include:
- Medicaid benefit package
- Greater personal and financial independence
- Members earn and save more without the risk of losing their healthcare coverage

Who qualifies for HWD? Washington residents who
- Are age 16 through 64
- Meet federal disability requirements
- Are employed (including self-employment) full or part time
- Have monthly net income* at or below 220% of the federal poverty level: $1,986 for one person or $2,672 for a married couple

What does it cost? Your monthly premium is based on a sliding scale. It cannot be more than 7.5% of your total income - but it can be less!

Interested in learning more? If you have been afraid of pursuing your career goals for fear of losing your health coverage, this program may be perfect for you.
