Bridging the Gap
Bridging the Gap

Round One: Critical factors impacting transition

Placemats (individual and table)

Switch tables

Round Two: Barriers to transition

Switch tables

Round Three: Successful transition
Round One:
Many factors impact the transition from PK-12 to postsecondary education.

• What elements would you identify as critical?
• How would you characterize their impact (either positive or negative)?
Bridging the Gap

Switch tables:

- Facilitator stays at the table
- One-third of participants stay at table
- Rest of participants move to nearby tables
Round Two:

Many barriers prevent the smooth transition from PK-12 to postsecondary language learning.

What barriers to successful transition from PK-12 to postsecondary education would you identify?

- How will you describe each barrier (what makes it a barrier)?
- What questions need to be answered (or what information is needed) to get at the heart of each barrier?
Switch tables:

- Facilitator stays at the table
- One-third of participants stay at table
- Rest of participants move to nearby tables
Bridging the Gap

Round Three: Help us identify our vision

Given this framework identifying what is critical for successful transition from PK-12 to postsecondary, how will we know success?

Describe the elements that will tell us we now have successful transition.

List (on back) any potential solutions or promising actions (policies, programs) to explore.
