Day 4
Objectives for Day 3

• Understand, identify, and begin to implement STARTALK-endorsed principles of standards-based curriculum instruction.

• Identify learners’ diverse needs—age, proficiency level, learning styles, linguistic and cultural background (heritage vs. non-heritage), and special needs.

• Reflect on ways to create a lesson plan and use varied activities that meet learners’ needs.

• Use and integrate authentic resources and develop tasks appropriate to the proficiency of the students.
Review-Reflect

- Comments or questions on yesterday’s experiences?
- Anything you would like us to work on / answer today?

- Proficiency guidelines – relate to Linguafolio
- 21st century skills map
- Putting it all together . . . .lesson planning
Can-do statements for today

Self-study resources for working with heritage students

- [http://startalk.nhlrc.ucla.edu/default_startalk.aspx](http://startalk.nhlrc.ucla.edu/default_startalk.aspx)
- Lesson 3
- Lesson 5
Same Text, Different Tasks

- Take one authentic text
- Differentiate the tasks
  - What would a novice level (beginning) student do with the text?
  - What would an intermediate student do with the text?
  - What would a heritage speaker do with the text?
Lesson planning

• Use backward planning and the STARTALK template

• Think of a theme
  ◦ can be STEM, but doesn’t have to be
  ◦ Can be for any level of students (beginning, heritage, etc.)
  ◦ You can work in groups on your first lesson, to support each other in your learning

• Think of can-do statements for the objectives of a one-class period lesson
Lesson planning continued

- Think of authentic resources that will support your theme and your can-do objectives
  - How will you find these resources?
- What kinds of communicative activities could your students do around these resources?
  - Interpersonal, interpretive, presentational
Assessment – Big Ideas

- Enduring Understanding: Assessment is an essential element of planning and instruction
- Essential Question: What kinds of assessment will help me and my students reach our language learning goal? How can we use assessment to help students and programs grow?
Student Assessment

- Formative
- Summative
- Good tests lead to good teaching, especially when we plan with the Backward Design approach
Performance Assessment

- Link directly to objectives
- What should students be able to DO?
- How to design good tasks?
  - Contextualize
  - Meaningful
  - Performance, not drill
  - Start at the end – the target and the standard
Sample Performance Assessments

- Worksheet for student weather research
- Should look just like normal tasks students do regularly – they won’t even know they are being assessed!

- BAME
  - Beginning
  - Approaching
  - Meeting
  - exceeding
Evaluating Performance

- Checklists. Including can-do statements
- Rubrics
  - Analytic
    - RubiStar: [http://rubistar.4teachers.org/](http://rubistar.4teachers.org/)
  - holistic
Other self-assessments
