Arboretum-wide Interpretive and Wayfinding Plan
Open House

The Master Plan for "Renewing the Washington Park Arboretum," was adopted by City Council and the University of Washington Board of Regents in May 2001. Last December the University, the City and the Arboretum Foundation approved an Implementation Plan that set priorities for Arboretum improvement projects.

One of the first projects is an Arboretum-Wide Interpretive and Wayfinding Plan that will identify major themes and educational messages, interpretive media suitable for weather conditions of the Northwest, and a wayfinding system appropriate for an Olmsted park. The Plan will serve as a guide to the implementation of all Arboretum projects.

We are beginning this project this month and expect to complete it by the end of this year. Please join us at an Open House to start the process of developing an Interpretive and Wayfinding Plan for the Arboretum, and share with us your ideas, concerns and suggestions.

Tuesday, Aug. 3, 2004
Graham Visitors Center at the Washington Park Arboretum
5:30 – 7:30 p.m.
