In May of 2003, a group of people representing the University of Washington, the City of Seattle, the Arboretum Foundation and the Community, participated in a Workshop to discuss Implementation of the Washington Park Arboretum Master Plan. They identified 29 projects that would fully implement the Master Plan, and grouped them into three categories: High Priority Projects, Medium Priority Projects and Future Priority Projects. Below is a list of the projects, grouped by priority category. The location of these projects is shown on the accompanying three drawings. Descriptions of the improvements proposed as part of each project will be displayed and discussed at the Implementation Plan Open House on July 31 at the Graham Visitors Center from 5:30 until 8:00pm.

High Priority Projects

1.1 South Entry – Madrona Terrace
1.2 Multi-Use Trail
1.3 Ridge Top Trail
1.4 North Entry
1.5 Arboretum Drive Relocation, Parking and Greenhouse
1.6 Graham Visitor Center Gardens
1.7 Pinetum
1.8 Azalea Way Pond
1.9 Arboretum-Wide Interpretive and Wayfinding Plan
1.10 Irrigation Mainlines

Medium Priority Projects

2.1 Foster Island Improvements
2.2 New Education Building
2.3 Additional Greenhouse
2.4 Maintenance and Operations Buildings and Yard
2.5 Hillside Trail
2.6 Azalea Way Renovation
2.7 Canopy Walk
2.8 Children’s Arboretum
2.9 Alpine Slope Garden
2.10 Japanese Garden
2.11 Woodland Meadow

Future Priority Projects

3.1 West Side Trail
3.2 Curatorial Building
3.3 Graham Visitors Center Remodel
3.4 Foster Island Pedestrian Overpass
3.5 Arboretum Creek
3.6 South Parking and Access
3.7 South Pedestrian Overpass
3.8 Off-Site Administration at MOHAI
