

UNIVERSITY OF WASHINGTON

November 06, 2002

<Name>
<Street>
<City>

Dear <Name>:

Technology has fundamentally changed the ways students at the University of Washington communicate, learn, and manage information. As technologies continue to play a large role on campus, many challenges have surfaced. We recognize the importance of making use of student opinions regarding these issues to effectively integrate technology into the University.

For this reason, we ask that you please take the time to respond to the *Student Survey on Educational Technology*. We are asking you to tell us how you currently use technology in your coursework and how you would like technology to be integrated into your coursework by your instructors. Survey responses will be summarized by campus, school, and department and used to inform decision-making regarding allocation of University resources to better meet your needs.

The survey takes only about 15 minutes to complete. You can either fill out the enclosed questionnaire and return it in the postage paid envelope, or you can respond online at: <http://URL>. Please respond only once.

Also enclosed is an entry form for a drawing for a \$300 University Bookstore Gift Certificate. If you would like to enter the drawing, please complete and return the card. It will be separated immediately from your questionnaire to protect your privacy.

Because we have sent the survey to only a small, randomly selected group of students, your input is important for building a representative summary of student views. Your participation in this research study is voluntary and confidential, and you may omit any question you do not wish to answer. Your choice of whether or not to participate will not affect your standing at the University of Washington. Responses will be reported only in aggregate form. Your name will not be stored with your survey responses.

We greatly appreciate your time and effort.

Please respond to the questionnaire by November 21. If you have any questions regarding this survey, you may reach Debbie McGhee with the Office of Educational Assessment at (206) 616-0364.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "G. S. Bridges".
