Dr. Chinazo Cunningham is Professor of Medicine and Associate Chief of General Internal Medicine at Albert Einstein College of Medicine and Montefiore Health System. For over 20 years, she has provided care, developed programs, and conducted research with people who use drugs with or at-risk of HIV infection. Her research focuses on improving access to care, health care utilization, and health outcomes, particularly for opioid use disorder, medical cannabis, and HIV. Dr. Cunningham has authored over 100 manuscripts and led numerous grants. She serves on several national advisory committees and has been featured on major media outlets including the NY Times, Washington Post, NBC, and National Public Radio.
