Center for AIDS Research

Seminar Series

Leveraging Electronic Health Records to Improve PrEP Prescribing

Thursday

June 4, 2020

4:00 pm - 4:30 pm

Webcast Only

https://washington.zoom.us/j/91359903851

Featuring

Julia Marcus PhD, MPH

- Assistant Professor, Harvard Medical School and Harvard Pilgrim Health Care Institute
- Adjunct Faculty, The Fenway Institute

Julia Marcus’ primary research focus is improving the implementation of PrEP to prevent new HIV infections and promote sexual health. Her studies have leveraged data from electronic health records (EHRs) to identify patients who may benefit from PrEP, characterize PrEP uptake and continuation, and document clinical outcomes among PrEP users in real-world healthcare settings. She is also leading implementation studies to determine whether EHR-based predictive analytics and clinical decision support can improve PrEP prescribing in diverse healthcare settings.
