

2013 STD & AIDS Research Symposium

Tuesday, October 29, 2013 | Program 9:00 AM - 5:00 PM

Harborview Research and Training Building | Auditorium and 109/113 | 300 Ninth Avenue, Seattle

Time	Speaker	Title
8:30	Continental Breakfast (R&T Room 109/113)	
9:00	Ann Collier, MD Professor, Medicine, UW Sheila Lukehart, PhD Professor, Medicine, UW	Welcome
9:05	Bhavna Chohan, MSc, PhD Senior Research Scientist, Centre for Virus Research Kenya Medical Research Institute	Prevalence and correlates of Nevirapine (NVP) resistance in NVP unexposed HIV-1 infected infants initiating early antiretroviral therapy
9:30	Emily Ho, MD, PhD Acting Instructor, Neurology University of Washington	Central nervous system inflammation in HIV and Syphilis
9:55	Justine Sunshine, PhD Postdoctoral Fellow Vaccine and Infectious Diseases Division Fred Hutchinson Cancer Research Center	Increased sequence coverage through combined targeting of variant and conserved epitopes correlates with control of HIV replication
10:20	Lindley Barbee, MD, MPH Senior Fellow, Infectious Diseases University of Washington Assistant Medical Director, STD Program Public Health - Seattle and King County	Antimicrobial resistant gonorrhea and the pharynx
10:45	Poster Session (R&T Room 109/113)	
11:45	Lunch (R&T Lobby and R&T Room 109/113)	
1:00	H. Hunter Handsfield, MD (Chair) Professor Emeritus, Medicine, UW Lisa Frenkel, MD Professor, Pediatric Infectious Diseases, SCHRI Matthew Golden, MD, MPH Director, HIV/STD Program, PH-SKC Professor, Medicine, UW Aaron Katz, CPH Principal Lecturer, Health Services, UW Joanne Stekler, MD, MPH Associate Professor, Infectious Diseases, UW	Panel: Pre- and Post-Exposure Prophylaxis: Challenges and Implications for HIV and Other STDs
2:30	Joshua Herbeck, PhD Acting Instructor, Microbiology University of Washington	Modeling trends in HIV virulence
2:55	Afternoon Break (R&T Room 109/113)	
3:10	Patricia Pavlinac, MS PhD Candidate, Epidemiology University of Washington	Diarrhea etiologies in HIV-infected and uninfected children
3:35	Arjun Rustagi, PhD Medical Scientist Training Program Student University of Washington	Control of innate antiviral immunity by HIV-1
4:00	King Holmes, MD, PhD William H. Foege Chair, Global Health Professor, Global Health, Medicine Adjunct Professor, Microbiology, Epidemiology Director, Center for AIDS and STD University of Washington Chief, Infectious Diseases Harborview Medical Center	Keynote: Clinical Epidemiology, Experimentation, and Serendipity in STD/HIV Research
